Co. be directed to station a flagmau for the protection of foot passengers and vehicles, at the Chicago & Alton crossing and Lock street.

LITERARY NOTE.

The July number of the Philadelphia LADIES' HOME JOURNAL contaius the second chapter of a story written for its colums by Harriet Prescott Spofford, a seasonable article on Gardeu Parties and out-door entertainiug, by Christiue Terhuue Herrick, an iuterestiug article on commou grammatical errors, and how to appear aud talk well in company,

Mrs. Louisa Kuapp, its editor, has met with a remarkable success in building up that paper to a circulatiou of over 270,000 paid subscribers iu three years by her rare tact and genius in catering to the home iustincts of her sex, in the rich feast of good things set before her readers every month. The JOURNAL is a perfect gem, handsomely priuted and illustrated, and employs only the best writers, such as Harriet Prescott Spofford, Marion Harland, Rose Terry Cooke, Mrs. Christine Terhune Herrick (Marion Harland's daughter), Mrs. J. H. Lambert. of Philadelphia, Mary Abbott Rand. Elizabeth Stuart Phelps, Louisa Alcott, aud Josiah Allen's Wife have promised to contribute the coming autumu, provided health aud strength will permit of additional work.

A dainty decoratiou for a bureau is a scarf of pure white Chinese silk, liued with yellow silk, the latter glowiug through squares of drawn work, fine aud intricate as a spider's web. At the ends of the scarf are hung yellow silken cords and tassels.

SUBURBAN IMPROVEMENTS.

HYDE PARK.

The school census of the first district shows the following: Population in 1885, 10,983. Population in 1866, 12,302. Increase, 1,319. Per cent of increase 12. Between Forty-third and Forty-seventh streets there was an increase of 206, or 28 per cent. Between Fifty-fifth and Fifty-ninth streets the increase was 114 or 11 5-10. At Woodlawn there was an increase of 24 per cent. There are in the disarict 3,147 persons of school age, between 6 and 21. Of this 1,977 were enrolled in the public schools during the year or all bnt 170. Most of those not in the public school live between Eighty-third and Eighty-seventh streets and attend the parochial schools at South Chicago.

AN INCREASE IN THE ASSESSMENT OF $306,990 OVER THE PREVIOUS YEAR.

The books show the following figures:

	1886.	1885.	Increase.
Real estate....	7,048,495	6,803.102	245,393
P'rsn'l property	651,960	590,363	60,597
Totals.....	$7,700,455	7,393,465	306,990

An ordinance was passed for a water pipe in Lake avenue from Fortieth street to village limits north; for a sidewalk on east side of Berkeley avenue from Forty-second street to Bowen avenue; on the east side of Michigan avenue from Sixty-first street to 536 feet south; on the south side of seventy-sixth street from Coles avenue to 200 feet west; on the east side of Lake auenue from Forty-seventh street to sonth line, lot 13 b 2 Hyde Park; on the east side of Lake avenue from Fifty first street to north line lot 8 b 6 Hyde Park; on south side of Fortieth street from Langley avenue to 210 feet west; on the west side of Cornell avenue from Fifty-first to Fifty-third streets; on the west side of Langley avenue from Forty-second street to first alley north; on east side of Cornell avenue from Fifty-first to 619 feet south; on the sonth side of Oakwood avenue from Ellis avenue to Drexel bvd; on the west side of Lake avenue from Fortieth street to 540 feet south.

The following ordinances were ordered engrossed, providing for for the levy and assessment of the annual appropriations for corporate purposes for the fiscal year from April 6, 1886, to April 4, 1887. And for amending Chapter 40 of Laws and Ordinances governing the Village of Hyde Park; also concerning the selling of liquor and the issuing of licenses therefor were presented.

HOW TO DECORATE.

Hangings and draperies can be scented by saturating them with the smoke of Chinese joss sticks.

A pretty background may be devised for an old-fashioned mirror by gathering China silk in large, loose folds and fastening it under the frame with small tacks.

Chair sachets of silk can be covered with bolting cloth, on which are painted gronps of disks, tinted delicately with the transparent dyes forming back-gronnds for flowers, butterflies and foliage.

An exqnisite screen panel of rich blue satin has a rustic trellis, over which orange, gold and tawny red nasturtiums climb, the delicate green of their leaves harmonizing with the browns, rich reds and yellows.

Rooms done up in Arabian style are now very fashionable—a screen of Cairene woodwork across one side of the room, Cairene woodwork in the windows, Arabian coffee tables, inlaid with pearl and ivory, Arabian mirrors set in a sort of red wood inlaid with pearls, the walls panelled with stamped leather, Arabian tiles for a dado, and embroidered leather covers for chairs and footstools.

THE RECORD.

REAL ESTATE LAW.

Charles K. Harland v. Henry B. Eastman.
Filed at Ottawa, May 15, 1886.

To show Title to Land—Possession.—The doctriue is well recognized that proof of possession of land under claim of ownership is prima facie evidence of a fee simple title in the occupant so claiming to be owuer.

Proof of Plaintiff's Title.—In an action of ejectment the plaintiff proved that A, as far back as 1855, was in possession of the premises, claiming as of privity between the parties to the suit with respect to the property sought to be recovered. In other words, when parties claim under independent hostile titles demaud of possession is not required.

When the plaintiff in ejectment claims title by deeds from the heirs of a person having possession up to his death claiming to own the premises, and the defendants seek to show an outstanding paramount title in a third person derived through a sale of the premises for taxes, no demand of possession or notice to quit need be shown by plaintiff.

Tax Title.—If the judgment against a lot for taxes is for a greater sum than the taxes due thereon, the sale therennder and the deed will be void.

Service of Notice Before Taking Deed.—A purchaser of real estate at tax sale or his asignee, before he is entitled to a deed is bound to show a strict compliance with the requirements of Sec. 216 of the Revenue Act; and he is required by section 217 to make and deliver to the officer authorized by law to execute a deed, an affidavit setting fort specifically the facts relied on as a compliance with the requirements of section 216. The provisions of these sections are mandatory, and their strict observance is a condition precedent to the execution of the tax deed.

The provisions of section 216 of the Revenue Act as amended by the act of 1879, providiug for the service of notice before taking out a tax deed, applies for sales of lands for taxes, made before the act of 1879 took effect, and the notice of the purchase made after such amendment took effect must comply with it.

Conveyance.—An objection to the admission in evidence of a deed by a woman on the gronnd her husband has not joined in its execution without proof she had a husband at the time it was made, can not be considered; and a recital in such deed of her "having formerly been the wife of R. C. P.," is no evidence she had a husband when the deed was executed.

A deed of a married woman on her lands without her husband joining in its execution, properlv acknowledged, is valid to pass her title, and is admissable in evidence in an action of ejectment to show title in her grantee.

Elizabeth Wallahan et al v. Eva Ingersoll
Filed at Ottawa, May 15, 1886.

1. Tax Title.—When the affidavit of the service of notice of a tax purchase fails to state the particular facts relied on as showing a compliance with sections 216 aud 2 of the Revenue Act, as amended by the a of 1879, the sale being In 1881 for taxes 1880, it will not authorize the makiug of deed by the couuty clerk, and, if made, will be void.

2. Escheat—Title by.—Where the owne of real estate died intestate nnder the la of 1845, without heirs capable of inheritin it, the title thereof devolved by operation c law upon the State. But to make the titl available to the State, it had first to b established by a judicial proceediug in th nature of an inquest of office; and th record of it is the only competent evidenc by which a title by escheat can be estal lished.

The first step under the act of 1845 t establish an escheat was the filing by th attorney-general, or the circnit attorney, o an information in the Circuit Conrt of th county in which the land was situated, giv ing its description, the name of the perso last lawfnlly seized, the names of the terr tenants and the persons claiming suc estate.

Mr. John P. Altgeld, for the appellee.

33—21 John A. Lomax v. George A. Gin dele. (Opinion by Mulkey, J., affirming.
Filed at Ottawa, May 15, 1886.

1. Tax Sale—Act amounting to redemption.—When the holder of an nndi vided half of a tract of land, having th right to redeem the same from a tax sale instead of doing so directly, enters into an agreement with the holder of the tax cer tificate of purchase, by which the latter is to and does take out a tax deed, and on th same day conveys all his title to the former this will be treated in eqnity as a redemp tion from the tax sale as between the party so receiving a conveyance and his co-tenant holding the other nndivided half.

Elezar Divine v. Elizabeth M. Harkness et al. Jnne 15, 1886.

When a purchaser of land at gnardian's sale is gnilty of frand in making a corrupt agreement whereby he prevented competition and obtains the land at less than its value, and as a part of the price pays off a mortgage on the premises drawing 10 per cent. interest, there will be no error in allowing him only six per cent. interest on the money paid by him. His payment being one made in wrong in the carrying out of a wrongfnl purchase presents no case for the application of the equitable doctrine of subrogation.

1. Contract.—To constitute contract of sale of land by the acceptance of an offer to sell, it mnst be unconditional. No contract will result from a letter in reply that the party will accept the offer "provided the title is perfect." At any time before an unconditional acceptance of an offer and compliance with its terms it may be withdrawn.

THE
Real Estate and Building JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, AUG, 7, 1886.

THE MARKET.

The largest sale of the week, though not as yet recorded, was the purchase by L. J. McCormick from J. H. Dwight, of the southwest corner of Wabash avenue and Monroe street, known as the Edy Building—53x85 feet, for $200,000, cash. This property was bought direct of the owner by Mr. McCormick—a rare occurrence for a Chicago real-estate deal.

Another sale of importance was 42 feet on Madison street, Nos. 263 and 265, for $31,000, sold by Mr. Seeley, of Decatur.

Two or three other large contracts or options have been made. Any property in the centre of the city that will net 6 per cent. on a fair valuation, can be sold readily. One firm is ready to place five millions dollars in such property at once.

The advance in prices over last year of central business property, may be seen by comparing the offers made this year with those of last, for the same property. For instance, a year ago an owner agreed to sell a certain business corner for $165,000, and this week the owner refused to accept an offer amounting to nearly $200,000.

Eighty acres in Lake View, south and west of Addison and Ashland avenues, have been bought by a Philadelphia syndicate for $200,000. The intentions of the company are not yet made known.

The future of Centre avenue looks especially favorable. The construction of the viaduct some time ago on this street, the extension at an early date of street cars, and the probable construction of a bridge across the river in the near future, are all conducive to a general rise in the value of this property. Property on Centre avenue, in the viciuity of Eighteenth street, is held 25 per cent. higher than last year.

Frank Nowak has sold the following: Six lots on S. W. Boulevard, near 24th street; 9 lots on Coulbert street, near California ave.; 9 lots and cottages on Laughton street, near California ave.; 15 lots on Marvin street, near same street; 3 lots, corner of Coulter and Oakley streets; 7 lots on Ashland ave., between Addison and Nellie avenues. Lake View—4 lots, corner of Laughton and Oakley; one lot on 20th, corner Johnson; 1 lot on 12th, near Western ave.; 1 lot on 19th Place, near Johnson, and house and lot on West 15th street, near Canal st.

Rennpath & Knefel have sold, on Fourth avenue, near Polk, 25 feet, improved, for $28,000; 2515 Wabash avenue, $9,000; 2700 Dearborn street, $6,500; besides numerous sales of cheap lots for immediate improvement.

A. Limberg has sold, in Lake View, 2 lots on Ashland and School, $2,000; 4 lots, cor. Ashland and Addison, $2,725; 2, cor. Ashland and Nelly, $1,200; and one on Ashland, north of Addison, $500. Mr. Limberg reports a marked advance in the prices of lots in the subdivision from which the above were sold.

William R. Walleck reports a very fair demmn for property in the southwestern part of the city.

T. C. Hill & Co. have recently opened up an office at 120 La Salle street, for the transaction of a general real-estate and renting business. Special attention will be given to the paying of assessments and the management of real-estate for property owners.

H. C. Zuttermister & Co. have sold the northeast corner of 12th and Lytle, $6,700; northeast coruer Centre ave. and McMullen, $2,000; lot on 20th street, near Ashland ave., $1,000; 2 lots on Ashland ave., near Taylor st., $6,125; lot on 34th, near Auburn, $550; lot on Sherman st., $3,800; 5 lots on 21st, near Centre ave., $5,000; 2 houses and lots on Johnson, near 18th st., $3,500; 3 lots on 16th, near Newberry ave., $2,850.

H. C. Morey has just returned from a short vacation trip and finds the demand for real-estate to have been active while he has been absent.

C. R. Walleck sold, last week, 4 lots on 18th street, 1 on Leavitt st., 1 on Walleck Place; 2 on West 19th st. and one on Hoyne ave. Mr. Walleck reports a larger demand for lots ranging from $350 to $600 than heretofore, and more sales during the month of July than previous months of the year.

Becker & Foskett have sold, on Wrightwood ave., house and lot for $18,000; also house and lot on Lincoln avenue for $5,500. An improvement has been noticed by them in the condition of the real-estate market of Lake View.

A. B. Anderson & Co. of Lake View has sold, during the last few weeks, 19 houses and lots, aggregating in amount, $11,525.

Wm. E. Taylor reports an improvement in the sales of South Side property as well as the suburbs to the south. Building is specially active.

Thos. Crowley is building ten more of his popular houses on 15th street, betw'n Washtenaw and Rockwell. These have ten rooms and are built on stone foundations. They are sold on monthly payments, the interest stopping on every payment as it is paid, and with the privilege of taking up all notes at any time.

R. S. Elder sold, during last month, 40 lots in Lake View, from $550 to $1,500 each. He has sub-offices located at Belmont and Racine, and Southport and Wellington streets.

THAT RE-ASSESSMENT.

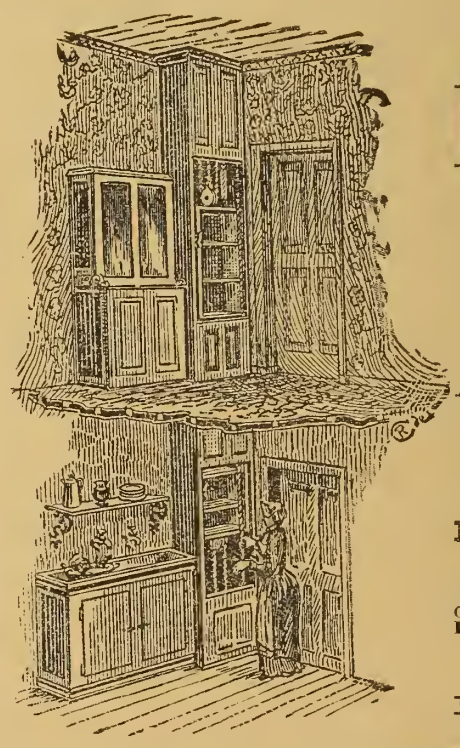
The action of the county board of Cook county in ordering and directing the Assessors to make another and higher assessment by which the amouut returned will be $100,000,000 in excess of the assessment already made this year, is stirring up a strong opposition among tax-payers. The pretext for this action it is claimed is in the inequality of and omissions in the first assessment. The constitutional barrier in the way of reckless extravagance can only be surmounted by a higher levy, which will compel Cook county to pay more than its proportion of State taxes. A depleted treasury can be remedied in another way, and that is to require an honest and economical administration of the county's finances. The rotten. and crumbling court house which cost entirely too much in the first place must be propped up and repaired at the expense of thousands of dollars. Cut down the salaries and the number of employees and stop paying more for coal aud a score of other articles than individuals and business houses pay for the same things in large quantities.

Goldsen & Hanson are carrying on a general real estate and renting business at Rooms 17 and 18, 122 La Salle street. They are also dealing in business chances of every description. References are given if desired.

A CHANGE.

The firm of Wright & Tyrrell for twenty-nine years actively eugaged in the real estate and loan business of Chicago has recently been dissolved, on account of the continued ill-health of Robert C Wright Jr., who retires. The business will be continued by the successors of the above firm, Chas. T. Tyrrell & Co., the individual members being Chas. T. Tyrrell, John A. Tyrrell and Frederick S. Tyrrell.

They will carry on, as heretofore, the business of negotiating mortgage loans and purchase and sale of real estate. Their office will be at Room 9, Tribune Building, the location of the old firm for twenty years.



Prominence will be given to the negotiating of time loans at current rates of interest. With superior facilities for the placing of loans both in their connection with capitalists and the experience of many years, the success of the new firm is assured.

PROPERTY TO THE SOUTHWES

A visit to the Southwestern part of city discovers evidences of a rapid and s stantial growth. The street improveme are specially to be noted as the bad co tion of the streels heretofore has bee detriment to this property. Many la buildings laid out in stores and flats ab have been built. J. F. Stepina 550 Blue land Av., reports an active demand for t property with bright prospects for incre in its value.

He has sold a house and lot on Loomis near Blue Island av, at $3,000; property proved on 20th near Throop street at $5,; also 15 lots in different subdivisions besi placing $20,000 in loans.

COUNTRY BUILDING NEWS.

Advance Information to Architects, Builders, Contractors and Dealers in Building Material.

The surprising number of permits issued from day to-day indicates an improving activity in building trade circles.

There seems to be a tendency to centralize the real-estate and building interest. There is a magnificent opportunity just now for the organization of a Building Erection Company with sufficient capital to undertake the heaviest operations. It would be able to command the services of the best architects and the most experienced builders.

KANSAS CITY, Mo.—Case & Reynolds will build a brick business block, 50x80, at the corner of Liberty street and St. Louis ave., to cost $15,000.——J. J. Lewis, brick residence, 40x40, at 1431 Brooklyn ave., to cost $2,500.——John Stevens, brick residence, 60x49, to cost $6,000.——W. H. Craig, brick residence, 52x60, Independence ave., near Garfield, to cost $16,000.

WASHINGSON, D. C.—Fourteenth st., southeast corner G street, N. W., five-story fire-proof building; cost, $40,000; owners, J H. Small & Sons, florists; architect, B. B. Bradford; builders, Langley & Gettinger; plumbing, Jas. Noon; steam apparatus, Bates & Johnson.——Pennsylvania ave., No. 1225, four-story brick store, for F. G. Smith; E. S. Frederick, architect; C. T. Bennett, Baltimore, builder.

HOT SPRINGS, ARK.—Gov. Rector has commenced the foundation of a three-story hotel.

COVINGTON, KY.—Trinity Church will build a $6,500 chapel.

WASHINGTON, D. C.—F. G. Smith will erect a $20,000 building at 1325 Pennsylvania ave.

PARIS, KY.—W. H. McMillan, J. K. Ford and others have organized a company to build a $30,000 opera house.

SAN FRANCILCO, CAL.—Two-story frame dwelling, for Mrs. Louisa L. Amos, to cost $5,000; S. & J. C. Newsom, architects.

LOUISVILLE, KY.—Stizel Bros. will build a $1,000 warehouse.——Fred. Hofer will erect a $11,400 brick store and dwelling.

INDIANAPOLIS, IND.—A brick house to cost $7,000, is to be built for Orrin Perry; Wilbur S. Knowles, New York, architect.

BALTIMORE, MD.—The Maryland Central Railroad Co., of Baltimore, have commenced on the foundation of a new stone depot, 43 x 38 feet.

PINE BLUFF, ARK.—R. G. Atkinson & Co. have contracted to erect the machine shop, round-house, etc., to be established by the St. Louis, Arkansas and Texas Railway, at a cost of about $100,000.

MINNEAPOLIS, MINN.—Minneapolis Railway Transfer Co., brick engine house, Eleventh ave. S. and First street; cost, $4,000.

Northwestern Hospital Association, three-story brick hospital, corner Eighth ave. and Twenty-seventh street; cost, $30,000.

R. H. Jones, five 3-story brick stores, 3110-39 Franklin ave.; cost $24,000.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

J. P. WHITE,
Room 10, 99 Washington St.

A NEW DEPARTURE.

The rapid increase in the business of the firm of E. W. Zander & Co. has made it necessary for them to open up an office on the South Side at No. 169 Washington St., main floor, that they may fully meet the demands of their many patrons. Their elegantly furnished and equipped office on the West Side at 69 South Clinton are still retained. The care and management of property, including the collecting of rents, paying taxes, placing insurance, etc., has formed a large part of their business and will be given greater prominence than ever. They cary on an extensive business in North and West Side real estate and have a large amount of the choice property on these sides for sale.

MR. CHARLES GOODMAN, 115 Dearhorn St., who has for the past eighteen years managed W. S. Johnston's vast estate valued at $2,000,000, with upwards of 600 tenants, has recently secured an appointment from the court as trustee for the same estate. The action of the court is worthy of special mention in that it shows the approval of the careful management of the estate for so many years by Mr. Goodman and a confidence in his integrity and executive ability. Mr. Goodman's long experience makes him an authority as to values aud a reliable appraiser of Chicago real estate.

CITY COUNCIL.

CHICAGO, July 26.

An ordinance was passed to make estimates for the improvement of Congress st. from HALSTED to Centre ave.; also to proceed with the improvement of Warren ave. from the C. & N. W. R. R. to Sacramento ave.; for sidewalk on both sides of Douglas ave., from Oakley ave. to Southwestern boulevard; on both sides of Cherry ave., from North Branch to Division st.; same on north side of Grand ave., from Artesian ave. to Rockwell st.; same on both sides of W. 12th st., from Western ave. to California ave.; on both sides of Fifth ave., from 36th to 37th sts.; on both sides of Quinn st., from Archer ave. to 31st; both sides of Dashiel st., from 31st to 32d; on both sides of Springer ave., from Laurel to Ullman st.; both sides of Jay st., from Center st. to Fullerton av.; same on both sides of 21st st., from Jefferson street to Union st.; on east side of Portland av., from 36th to 37th street; on both sides of Western ave., from Madison to Van Buren; both sides of Nixon st., from Polk to Taylor; on east side of California ave., from Division st. to North ave.; on south side of Harrison st., from Blue Island ave. to May st; both sides of Gilpin Place, from Loomis to Sibley st.; both sides of Charleton st., from 33d to Douglas ave.; on north side of 33d, from Ashland ave. to Charleton st.; both sides of May st., from Madison to Lake st.; both sides of Auburn street, from Thirty-first street to Douglas avenue; west side of Holstein Park, from Ems to Hamburg st.; both sides of Ayres Court, from Harrison to West Chicago av.; both sides of Bradley st., from Noble to Elston av.; south side of Iowa st. from Wood to Robey st.; both sides of Seymour st., from Kinzie st. to Chicago ave.; both sides of Pratt Place, from Hoyne ave. to its western terminus; both sides of Oakley ave., from Douglas to 36th st.

An old-fashioned mirror and spinning-wheel are combined so as to make a quaint looking dressing table, the wheel projects beyond the right side of the mirror, and is used to hang various articles on, hooks being inserted; at the left is a dressing-case finished like a cabinet, in which bric-a-brac may be placed; underneath this and separated from the table, which extends from the center of the wheel to the end of the dressing-case, is an alcove which serves as a receptacle for the toilet service, a deep drawer is below this and a small cupboard below the mirror.

CHICAGO REAL-ESTATE BOARD.

The Real-Estate Board held its regular meeting Wednesday afternoon. The Committee on Forms of Agreement for Purchase and Sale reported a draft of such agreement. The principle features of the form are: (1) fixing the time at which the purchaser shall be entitled to the rents and assume liabilities for taxes and assessments: (2) the deposit of ernest money by the purchaser to be forfeited at the option of the seller, as liquidated damages in case the purchaser does not complete his contract, and which shall be refunded if the abstract does not show a good title or material defects are not cured within sixty days; (3) tender of the vendor's deed is expressly waived; (4) the agreement is not to be recorded so as to become a cloud on the title, but is to be held in escrow.

The attention of the board was called to the fact that of the 3,000 or 4,000 real estate brokers in the city probably not more than 500 paid a license. The question came up whether the board ought to take steps to have the ordinance repealed or have the city clerk collect the license from all brokers. The evils arising from "curb-stone" brokers, lawyers who make real estate deals for other parties, and unlicensed brokers were discussed in a general way and the whole matter referred to special committee consisting of the President, Mr. W. W. Baird and Mr. F. A. Henshaw.

REAL ESTATE LAW.

Elezar Divine v. Elizabeth M. Harkness et al. June 15, 1886.

1. CONTRAOT.—To constitute contract of sale of land by the acceptance of an offer to sell, it must be unconditional. No contract will result from a letter in reply that the party will accept the offer "provided the title is perfect." At any time before an unconditional acceptance of an offer and compliance with its terms it may be withdrawn.

2. SAME.—The agents for the owning or party having the power to sell a lot, gave to a party desirous of purchasing the same, a receipt as follows: "Received of J. A. W., attorney for T. N. C., his check for $500, as deposit, on account of proposed purchase of sub-lot 2, etc., said sum of $500, when paid to apply on said purchase of said lot at $8,000 cash, or to be returned to him in case said sale cannot be perfected, say within sixty days from this date, or in case the title should prove defective; it being understood that we are to forward a deed to the owner of said lot and recommend its execution. Lyman & Giddings." Held, not the evidence of a contract of sale, but only a proposed purchase and agreement of the agents to forward a deed and recommend its execution.

27—14—Frank Cihak v. Hynen Klekr et al. Filed at Ottawa, May 15, 1836.

1. EASEMENT—In alley appurtenant to lot.—Where the owner of two tenements, or of an entire estate, has so arranged and adapted them that one tenement or one portion of the estate derives a benefit and advantage from the other of a permanent, open and visible character, and he sells the same, the purchaser will take the tenement or portion with all the benefits and ' ardens which so appear at the time of the sale to belong to it. It is not necessary in such case that the easement claimed by the grantee must be really necessary for the enjoymeut of the estate granted. It is sufficient if it is highly convenient aud beneficial therefor.

When the agent of the owner of three lots, 19, 20 and 21, lying parallel to each other and adjoining, for convenieuce in leasing, made a plat of lots 20 and 21, dividing them transversely into four lots leaving an alley ten feet wide off the ends of such lots next to lot 19, which accommodated that lot as well as the other four of the sub-division and was highly convenient and beneficial to lot 19; and such agent in negotiating for the sale of the half of lot 19 next to the alley, exhibited to the purchaser a plat showing such alley acknowledged by the lot owner, and promised to have the same recorded, and the sale was closed by the purchaser on the assurance and belief that such alley was an easement to his lot, and the owuer in making sales and conveyances of the other lots sold with reference to such plat, and reserved off the end of each of the four lots ten feet next lot 19, and finally put such plat on record on which the alley was marked. "Reserved for private alley": Held, that such alley became and was an easement appurtenant to lot 19, which could not be destroyed by the owners of the other lots without the concurrence of the purchaser of lot 19. In such case the subsequent sale of lots by such plat reserving the alley implied knowledge by the owner of the same and was evideuce teuding to show his adoption and confirmation of the sub-division.

Charles K. Harland v. Henry B. Eastman. Filed at Ottawa, May 15, 1886.

TO SHOW TITLE TO LAND—POSSESSION.—The doctrine is well recognized that proof of possession of land under claim of ownership is prima facie evidence of a fee simple title in the occupant so claiming to be owner.

PROOF OF PLAINTIFF'S TITLE.—In an action of ejectment the plaintiff proved that A, as far back as 1855, was in possession of the premises, claiming as of privity between the parties to the suit with respect to the property sought to be recovered. In other words, when parties claim under independent hostile titles demand of possession is not required.

When the plaintiff in ejectment claims title by deeds from the heirs of a person having possession up to his death claiming to own the premises, and the defendants seek to show an outstanding paramount title in a third person derived through a sale of the premises for taxes, no demand of possession or notice to quit need be shown by plaintiff.

TAX TITLE.—If the judgment against a lot for taxes is for a greater sum than the taxes due thereon, the sale thereunder and the deed will be void.

33—21 John A. Lomax v. George A. Gindele. (Opinion by MULKEY, J., affirming.) Filed at Ottawa, May 15, 1886.

1. TAX SALE—Act amounting to redemption.—When the holder of an undivided half of a tract of land, having the right to redeem the same from a tax sale instead of doing so directly, enters into an agreement with the holder of the tax certificate of purchase, by which the latter is to and does take out a tax deed, and on the same day conveys all his title to the former, this will be treated in equity as a redemption from the tax sale as between the party so receiving a conveyance and his co-tenant holding the other undivided half.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, AUG, 14, 1886.

THE MARKET.

The Chicago real-estate market has not been as strong for years at this season of the year as at present. The real and main cause for this unwonted activity is fonnd in the general improvement of the business situation throughout the country;

The crops, the damage to which from the drouth, has been greatly overestimated by the daily papers, are in the main, good. The merchants are investing large amounts in replenishing their stock, which had been reduced to a minimum during the past few months, and Chicago real-estate, the favorite with investors, large and small, is receiving the benefit of this general prosperity and is becoming more popnlar than ever.

The rapidity with which the prairies heretofore existing between the parks—Douglas, Garfield and Humboldt, and Western ave', are being built up and settled, can hardly be realized by one who has not recently visited that part of the city. Churches, schools and stores are springing up to meet the demands of the growing population.

Messrs. Sawyer & Lombard, S. E. Gross, M. A. Farr, representing the West Chicago Land Co., Campbell Bros. and Turner & Bond, are among the heaviest builders in this district, and, in connection with the many who buy and build for themselves, have literally closed up the large gap that existed east of that system of West Side Parks.

An interesting case as to ownership of a little point of land at Geneva Lake, Wis., has recently arisen between two of Chicacago's worthy citizens, and unless it soon tnrns out that protection is afforded against violence and trespass in Wiseonsin, a hand-to-hand fight between the interested parties may be expected. The point of land in dispnte consists of about five and a half acres, and is one of the prettiest and most valuable on the Lake. It is known as Cedar Point. Its estimated valne is between $7,500 and $10,000.

The dispntants on one side are N. K. Fairbanks, a Chicago millionaire, and E. B. Meatyard, a wealthy land-owner of Wisconsin, with J. F. Lyon, a Chicago real-estate agent, as an opponent. A brief history of the case is as follows: Some years ago N. K. Fairbanks bought of E. B. Meatyard, a fractional part of Section 6, containing abont 87 acres, the section being described as extending to the lake and including the point in dispute. By referring to the plats of the original snrvey, made in 1836, it was found that Sec. 6 did not include the point in question, that being in Sec. 7; and it was further fonnd that no conveyance had ever been made of this point from the government; the property sold being always Sec. 6. With this information in hand, application was made the 10th of April, 1885, at the general land office at Menosha, Wis., for the land at $1.25 per acre, the regular price for government land, by Mr. Lyon, brother of J. F. Lyon, who now possesses the claim. The money of Mr. Lyons was accepted. Three days after this, Mr. Simmons, representing N. K. Fairbanks, appeared at the same office to claim the land, but his money was refused.

In June of this year, Mr. Lyon proceeded to take possession of the land by building a house upon it which he claims to have occupied one night with his men. At four o'clock of the morning following the erection of the house, Messrs. Simmons, Meatyard, and a gang of men dressed in uniform appeared on the grounds, demolished the house and bitched the lumber into the lake, much to the discomforture of Mr. Lyon. In the latter part of last month, Mr. Lyon served notice on Messrs. Meatyard & Fairbanks of the intended erection of another house. The second house was built and under cover on the 9th of the present month, when again, during Mr. Lyon's absence a gang of men under the direction of Meatyard and Fairbanks levelled the house to the ground. Suit has been begun for damages by Mr. Lyon against Fairbanks for $100,000, on the ground of trespass. Such is a brief account of the proceedings thus far. As a case of common law, Mr. Lyon evidently has a right to the land, for the plat of the original survey distinctly shows the line separating the 5½ acres from sec. 6. The only thing in favor of Mr. Fairbanks appears in a copy of the original plat. The figures which record the number of the purchase from the government, extend in part over the land in dispute. But even if Mr. Fairbanks has not a clear title to this point, the question arises can he not on the ground of equity demand a title to the land in consideration of the large amount which he has paid for land adjoining and bought on account of the choiceness of this very point, and in consideration also of the probable mistake in the copy of the original plat?

This remains to be tested in court. What ever may be the opinion as to the right or wrong of Mr. Lyon's actions in discovering this unclaimed land and his taking possession of it, nothing but condemnation of the methods of violence used by Messrs. Fairbanks and Meatyard, rests in the minds of the people. Such acts are directly opposed to all law, and are rather characteristic of the middle ages when the principle that right is might prevailed, than of the enlightenment of our own time.

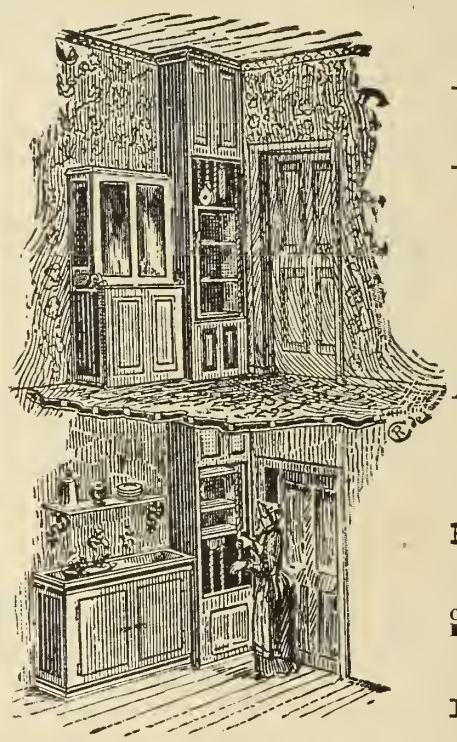
Knight & Marshall are preparing for the erection of two large buildings, one on Clark and Jackson, a hotel to be built at a cost of about $75,000; the other, a 5 story building on Clark 50 ft south of Van Buren, laid onl in stores and flats, cost $40,000 J. M. Van Osdell & Co., are the archetects.

Recorder Scribner will spend the coming two weeks at Waukesha.

E. A. Warfield reborts a large number of sales in the vicinity of Laflin, Loomis, 49th, and 51st; among recent sales is 5 acres bonnded by 50th, 51st, Bishop and Laflin sold to the Catholics for $17,500 to be improved by them with a building costing about $200,000 a stone chnrch, convent and brick school will be erected. The selection of this site by the Catholics will cause a general rise in adjoining lots. Street cars will soon be rnnnisg to the property.

J. P. White, "The market has never been so strong at thit season before.

Max Eichberg reports a good demand for loans.



Campbell Bros. have sold with in the past three weeks: 759 and 761 Warren ave to Mrs Minnie Upson for $5,000 each; 696 Warren ave to Thomas Arnott for $5,000: 712 Warren ave to P. L. Blakeslee for $6,000; 1184 Lexington st to N. C. Dake for $2,800; 1182 Lexington st to W. A. Jones for $2,800.

J. P. Bowes & Co., report a big demand for State st. property.

REAL ESTATE AUCTION.

An auction of considerable importance will be held on the 21st of August at 2 p.m., under the efficient management of Elison, Flessheim & Co. One hundred and nine lots, desirable for business, investment speculation or a home, will be offered at an unreserved sale, located between 44th and 43d sts Johnson and Wolcott ave. The auction will take place on the grounds, transportation to which is offered free by a train which leaves Polk st depot, G. T. R. R. at 1 p. m., the day of the sale. The property may also be reached by taking the Archer ave or Halsted st cars to Brighton Park where free bnsses take people to the ground. The sale will consist of 45 lots fronting on Archer ave; 21 lots fronting on 44th st; 14 lots fronting on Pullman ave; 16 lots fronting on Wolcott ave; 8 lots fronting on Johnson ave; 5 lots fronting on 43d st.

The rapid growth of this section of the city makes the property very desirable to cautions buyers as an investment. Fnrther information may be obtained from Elison, Flessheim & Co., 84-86 Randolph st., who have the anction in charge.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

HOW TO DECORATE.

Sapphire blue and gray are an effective combination.

Burnished brass divides the honor with oak, maple, mahogany, ash and other cabinet woods for fire and folding screens.

Marine objects are being drawn on more than ever as types for ornamentation in wood, metal work and ceramic ware.

Furniture and costumes show to a better advantage when the walls of the room are dark, while pictures look best on a light back ground.

If we wish to embroider a material with gold, it ought to be of good quality, and destined to ornament an article of luxury. In embroideries worked with colorad silks gold should be used merely to outline the ornaments.

In gas fixtures there is a tendency to light, graceful designs in preference to the ponderous constructions of the past. They are also made in reference to the various styles of architecture in vogue and with suitability to the room they will illuminate

Large floor cushions are made of velveteen painted with lustra colors, and finished round the side with satin thickly gathered on.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

THE GREAT ROCK ISLAND ROUTE

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

CHICAGO, SATURDAY, AUG, 21, 1886.

THE MARKET.

THAT "BROKER'S LICENSE."

The total wealth of the United States is now estimated at about $46,000,000,000, in a population of about 68,000,000, with a total of about 18,000,000 producers and wage-earners. An equal division under the solialistic plan would give to each person about $675. But before making a grand divide it might be well to square up with our public creditors. To close out our national account would require about $25, and to pay off State and municipal debts about as much more, or say $50 per capita, this would leave about $625 for each individual upon which to make themselves happy for all future time. Much of the wealth of the country consists of buildings for manufactories, railroads and machinery. Whether these are to be paid for or simply taken possession of without compensation is not as yet developed in the Socialistic plan. This class of property is only of value when sustained and operated by an amount of capital which it is quite impossible for a single individual to wield, so that new combinations would be necessary, which would destroy the Utopian plan and restore the old order of things. In fact, if the whole property of the country was declared to belong to the public and an equal division was made, the equality would not last until the division was completed, even could it be accomplished in a single day. Property might be divided, but the trading propensity of the ordinary Yankee suppressed, never!

An English statistical writer says, that, while population in Europe and the United States has risen 44 per cent since 1850 working power has increased 105 per cent and as a consequence of this, five men can now accomplish as much as six in 1870, or eight in 1850. The world's steam-power is now five and a half times what it was in 1870. In these two facts alone can be found an adequate explanation of the much-talked-of problem of over-production which has depressed the world for the last few years. There are too many producers, and not enough consumers; too many goods, and too few buyers.

Washington is one of the best, if not the best, paved city in the world. The laws of Congress regulating the matter have been so wisely framed as only to permit of first-class work. The particular pavement put down on a given street being carefully selected by competent persons with reference to the locality and the character and amount of traffic to be carried on. The specifications as to quality of material and method of construction are based on a careful study of the subject and are rigidly enforced by competent administrative supervision. The pavements recognized as standards in Washington, after careful trial and costly experiments, are: 1, the standard street asphalt with hydraulic base; 2, the tar distillate and asphalt street, with bituminous base; 3, asphalt block, and 4, granite blocks. All are so laid as to form a water-tight, uniform surface conforming to grades. It is one of the most urgent municipal undertakings which lies before the people of Chicago to repave the streets. It is hardly saying too much to assert that there is not one well-paved street in the city. Comfort of locomotion and the security of health require immediate reform in this particular. It is more costly to carry on business with the disadvantage of bad paving than it would be to go to the expense of making it good, precisely as it would be more laborious to carry things on our backs from one place to another, rather than to buy carts or wagons. The experience and the rules for guidance in paving our streets are ready to hand at Washington; and if an honest attempt should be made to give the people their money's worth in repaving the streets, our municipal authorities could not do better than consult with the Washington authorities and profit by their knowledge.

The general report that the market for real estate is active at the present time to an extent, hardly anticipated by the most sanguine brokers, received further corroboration in the records of the preceeding week, which showed an increase in the aggregate amount of nearly a million dollars over the corresponding week of last year, and in the number of transfers an increase of one hundred and eighty-two.

Property on Ogden Ave., west of Harrison is receiving improvements of a high character which has caused a sharp advance of that property.

As regularly as the years roll around, bringing in their succession the 1st day of May, the time comes and will continue to come, unless some decisive action is soon taken, for the payment of that odious Brokers License. Not odious in that it requires the payment of twenty-five dollars into the city treasury, a sum which is fair and just if any license should be required, but on account of the injustice done the one-fourth of the brokers who prefer to live up to the requirements of law, as law-abiding citizens in letting the other three-fourths go without paying the tax-license.

For instance, last year, out of over two thousand brokers only five hundred and fifty took out licenses. About seventy-five of these had to be sued before they came to time. The licenses for this year thus far taken out number one hundred and forty-four and this is nearly four months after they are due. Of this number nearly one-hundred are real estate men.

An examination of the books show a large per cent. of the leading brokers as not in this list. The excuses used by the three-fourths who did not pay their taxes last year are set opposite their respective names and are both amusing and suggestive. The following are some of the most common: "Out of city", "not found",, "out of business", "busted", "selling his own property," etc. The latter shows up a surprising number of the agents to be capitalists and extensive property owners. A prominent broker on the West Side was excused through the influence of an alderman. All this goes to show that either more vigilance should be exerted in collecting the tax or that it should be repealed. The collection of this license having been given a test for two years and proved an utter failure,—the other remedy, it seems, should now be tried and devolves upon the real-estate men as a body to carry forward. The move might well be begun by the Real Estate Board who would receive no doubt the hearty co-operation of the real estate fraternity.

Last spring, city collector W. J. Onahan asked the council to appeal the ordinance, but as no effort was made to second him by the brokers, nothing was accomplished. The estimates given above apply to the brokers who are successful enough to deem it necessary to have an office and do not include the innumerable curbstone brokers whose only offices are in their hat.

If the license could succeed in ridding the real estate business of these itinerant middle men, the real estate brokers would acquiese with good grace to the demand for their license. But with the present status of the real estate business, such an attempt upon the part of the collectors would be utterly futile. If action is to be taken to resist this year's license, it should be taken at once, as notices will soon be sent out from the collectors office and suits be begun against delinquents.

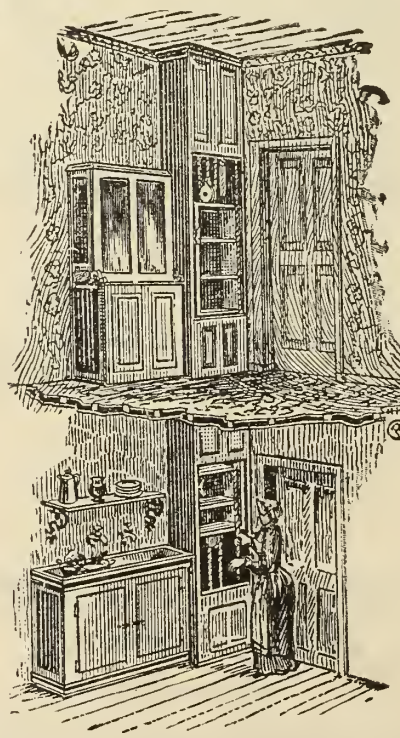
The firm of Edwin F Getchell & Co., have the honor of being the first of the brokers to pay the tax for this year.

Chas. P. Silva has sold 48 feet corner Hastings and Lincoln ave., for $1,600; 150 feet on Prospect ave., Morgan Park, for $900; 24 feet on State st., between 34th and 35th, at $4.250; one lot in Halsted add., and 50 feet on Washington ave., north of Prospect, Morgan Park; Thirty-eight houses have been started here within the last two months.

Willis G. Jackson has sold in his subdivision three houses on Monroe street, Albany and Kedzie aves., for $3,500 each. Fifteen houses will be commenced soon on Wilcox ave., and six on Troy. Property has advanced about 20% in this vicinity during the last year.

J. C. MaGill & Co., report an active business.

Osborn & Keeler report West Side real estate to be held very firm with a good feeling in the market for this property. West Side real estate is eagerly bought when any inducement is shown.



L. J. Gilbert has sold a house and lot in Englewood and two in Woodlawn during the last week. He is building eight houses in Englewood.

S. H. Kerfoot & Co., note an increase in the demand for Lake View property.

Henry Sweet, contractor and builder, 1531 Milwaukee ave., has built within the past few months fifteen three story brick flats on Rosebud st.; twenty-one three story stores and flats on Milwaukee ave.; forty cottages in various parts in the northwestern quarter of the city. He is now building six four story buildings on Harrison and Morgan at a cost of $64,000. The brick for these buildings comes from Mr. Sweet's own brick yard. The construction is under the direct supervision of Mr. Sweet and his manager, Mr. Steinbrecher.

Edward Weissert, 1001 Milwaukee ave., is a practical sewer builder of many years standing in Chicago. He has contracted for a large number of the buildings in the northwestern part of the city.

H. Meissner, the architect, has planned a residence for Mrs. Junker, 22x50, two story and basement, brick, cost $3,000. at 3232 Archer ave.; for Mr. Carbury at 2729 Archer ave., brick store and hall, 27x70, $8,000; for A. Hanschmann, three story brick store and flats, 384 W Division, $6,000.

The Michigan Buggy Co. are building a new factory 60 x 160 feet, four stories, brick. Work is now progressing on the second story and it will be ready for occupation about September 1st. Cost $15,000. James Boyland and F. Howe have the contract.

Bush & Patterson have the contract for a brick block for Dessenberg & Co. It will be three stories, with basement and is 58 x 90 feet. Adler & Sullivan, of Chicago, architects. It will cost when completed $18,000 and will be occupied as a wholesale grocery. The foundation is now being laid.

BATTLE CREEK.

W. K. Loughborough, the architect, has furnished the plans for a two-story frame dwelling for Fred Hill. Cost about $2,500. It is being built by the day. W. H. Whitcomb, superintendent.

A $3,500 school house is to be built at Flint.

An $8,000 school house will be built at Manton this summer.

The Catholics have decided to build a church at Newberry.

A new steam pump house is to be built at alma at a cost of $5,000.

A new school house is to be built at Howell, at a cost of $9,500;

It is announced that a new club house will be built at Charlevoix next season.

Citizens of Owasso have voted to build a $7,000 school house.

MISSOURI.

KANSAS CITY.—Burnham & Root report plans for a large hotel to be erected in Kansas City, at a cost of $500,000. It will front on Grand avenue and Eighth and Walnut streets, and will be seven stories and basement high. The material will be pressed brick and terra-cotta. It will be entirely fire-proof. It is being erected by a syndicate, and when completed will be operated by Mr. Willis Howe, late of the Palmer House and now of the Lindell, St. Louis, and Mr. Hill, formerly of Chicago, but now running a hotel in Topeka, Kas. This is the structure that some time ago was reported to be in charge of architect Hatch, of New York.

OHIO.

CLEVELAND.—Four story brick and stone block, 74x86, Champlain street, for Horace Kelley; cost, $15,000; Cudell & Richardson, architects. Jewish Synagogue, corner Scoville ave. and Henry street, of Ohio sand stone, cost $50,-000; Lehman & Schmitt, architects. Alterations to residence for J. H. Ullman, Scoville ave., cost $5,000; Cudell & Richardson, architects, Brick store for Benj. Holliday, Garden street, cost $2,500; F. C. Bate architect. Frame dwelling at Toledo, O., for D. J. H. Beckwith, cost $3,000; F. C. Bate architect.

GENEVA.—The Woodruff & Van Epps portion of the new block is ready for the cornice and roof, and is two stories high. Tyler is going up with the third story, and has the walls nearly up.

BEDFORD.—J. L Hains is preparing to build a store for tin and stove business on Main street.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

HOW TO DECORATE.

Sapphire blne and gray are an effective combination.

Burnished brass divides the honor With oak, maple, mahogany, ash and other cabinet woods for fire and folding screens.

Marine objects are being drawn on more than ever as types for ornamentation in wood, metal work and ceramic Ware.

Furniture and costnmes show to a better advantage when the walls of the room are dark, while pictures look best on a light background.

If we wish to embroider a material with gold, it ought to be of good qnality, and destined to ornament an article of luxury. In embroideries worked with colored silks, gold shonld be nsed merely to ontline the ornaments.

In gas fixtures there is a tendency to light, graceful designs in preference to the ponderons constructions of the past. They are also made in reference to the various styles of architecture in vogne and with suitability to the room they will illnminate.

Large floor cushions are made of velveteen, painted with lustra colors, and finished round the side with satin thickly gathered on.

To wash white silk pocket-handkerchiefs, nse white castile soap and lukewarm water, rub gently, and rinse in warm water, roll in a cloth and press off with a somewhat cool iron.

Exqnisitely dainty is a chair scarf of bolting-cloth ornamented with the pink convolvulus design.

Damasks, silx velours and fine tapestries take the lead in textiles used in parlor suits.

A box ottoman is immensely useful in a bedroom, and looks bright and pretty if covered with any of the beautifully designed cretonnes.

There are three places in a drawing room which we can make conspicnous; the portal, the mantel and the sofa, here we may decorate.

Punjab tables with irregularly shaped shelves for bric-a-brac are light and attractive for country homes, many are painted white with fine lines of gold.

Candelabra of cnt-glass are nsed at dinner parties; also lamps composed in every part of cut-glass, both producing exquisite effects.

CALUMET & CHICAGO

Canal & Dock Co

No. 170 Dearborn Street, Chicago.

Docks on Calumet River and Harbor.

For Lumber, Coal and Ore.

Grain Elevators have every possible convenience afforded by Water and Railroads.
Real estate at South Chicago.
Sites for Factories on River and Railroads.
Lots for business and residence uses.

Particular attention is called to one Ten-Acre Lot, with a dock front of one thousand feet, adapted to Box Manufacturing.

☞Possessing Docking and Dredging machinery of its own, this company is prepared to enter upon and execute promptly all work pertaining to dock construction. Special inducements offered to manufacturers.

Considerable originality with mnch good taste is shown in the designs of furniture recently brought out. A very pleasing novelty of the season is the spinning-wheel chair, in the body of which every part of the old-fashioned spinning-wheel is nsed with most picturesque effect. The chair comes in mahogany, cherry or antiqne oak.

The tendency of table-ware is toward smallness and compactness. The butter-plates, salt-cellars and pepper-pots are very diminutive and as a rule they are decorated in the same manner as the larger pieces, although there are many odd and striking designs. In salt-cellars, shells, leaves, frnit, and flowers are imitated, while pepper-pots come as mushroons, strawberries, acorns and branching off into the animal kingdom, every specimen is most faithfully repersented.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, AUG, 28, 1886.

THE MARKET.

The largest transaction of the week was the Farwell property, sold to Martin Ryerson for $330,000, or at the rate of $2,000 a foot. This is $500 per foot more than property on Market street has ever brought, and leads the cautious observer to consider it a fictitious price. The intended improvements have not as yet been made known. Other purchases have been made by Mr. Ryerson in this locality.

At the last meeting of the West Park Board, two items of interest were brought up. The Improvement Committee reported a resolution stating that it was the sense of the Board that it would accept Ashland avenue, Twelfth street and Ogden avenue for boulevard purposes when they were turned over to the Board by the city, providing the abutting property owners would bear the expense of improving and maintaining them.

A communication was received from a number of West Side citizens, including John M. Smythe, Daniel Shelby and George Middleton, asking the use of Douglas boulevard, from Madison street to Douglas Park, for the purpose of speeding their horses at such times and under such restrictions as the Board may impose. A motion to allow one afternoon a week for that purpose was made, but finally the whole matter was referred to the Improvement Committee for their report. The objection to allowing this use of Douglas Park boulevard is that there are no parallel streets that more sedate drivers could use while the boulevard is being used as a race-track.

Another large apartment building will soon be erected on the North Side. James Walsh has purchased the northeast corner of Erie and Pine streets, on which he will construct a fine building of this nature. Thomas & Rodgers, the architects, have plans for the building, which will cover the entire lot and will be four-stories high. Each of the four floors will be divided off into three suits of seven rooms each. There will be an entrance on both Pine and Erie streets. At the sides of these portals are to be columns of polished granite, with carved capitals and round archways in rough archwork. The walls are to be of red pressed brick and Bedford stone, with a round tower in brickwork on the corner. The interior is to be finished in hardwood and heated by steam. The cost of the building will be about $50,000.

In regard to the coming fall trade, both the records at the present time and the general awakening in other lines, point to its activity. Says one of our agents, "We will be agreeably surprised in the amount of business transacted in Chicago realty this fall."

The sales of the Chicago, Calumet and Dock Co. have been surprising during the past few months of both lots and acre property. The latter includes three sales, amounting to about $400,000, to strong business men, with the idea of improvement in this property. Every indication points to the largest sales during the coming fall that have been made in many years.

Wasmandorf & Heinemann report a larger business in loans during the summer months than last year.

Baird & Bradley find the demand with them to be largely for lots and a moderate class of residence property. Loans are active.

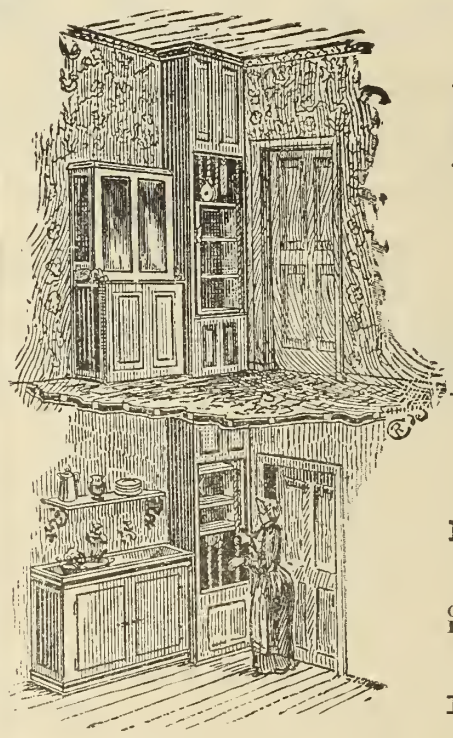
Snow & Dickinson note a disposition on the part of buyers to include in their demands for fine business property, a wider range, extending south as far as 22d, on the better business streets of the North and West Sides.

E. S. Dreyer & Co. are doing a rushing business in loans.

Henry Corwith has sold to James Todd, for $120,000, 40x171½ feet on Wabash ave., 120 ft. south of Jackson street, east front.

In 1882 asphalt was laid in two streets in Buffalo, in 1883, three; 1884, seven; in 1885 seventeen and in 1886 18 miles will be laid. This shows the sentiment of the Buffalo people toward asphalt as a pavement.

Our List of permits and conveyances exhibit a very fair degree of activity in real-estate and building operations. Every week develops some points of interest. Our enquiries among architects and builders show steady progress in work. Much of the frightened-off enterprise is returning. Great activity prevails in the western as well as the eastern sections of the city; in fact, no section is neglected. Real-estate transactions are mainly of moderate proportions. One or two large operations are under way in the town of Lake. It is stated by good real-estate authority that offers have been made in several instances for extensive tracts or building sites. Holders may make the mistake of refusing the best offer they will receive for years. Eligible sites are abundant. The various railroads are developing a great deal of desirable and valuable real-estate for building purposes. The spirit of enterprise is abroad in the northwest, along the line of the C. M. & St. P. road. At South Chicago, and further south, there are evidences of progress. A great deal of small property has recently changed hands, and extensive building operations will be shortly projected. The property holders there are not, as a rule, exacting the last dollar, but are welcoming capital and building enterprise. In the southwest a great deal of work is under way, and much more building (we speak advisedly), will be undertaken during the third quarter of the year.



Real-estate in the more central portions of the city takes strange fluctuations. Certain properties near 22d and State streets, West Adams and Halsted streets, have actually depreciated in value of late years, while along Clark street, north and south, a steady appreciation is in progress.

Property along Lake, Randolph and Washington streets is improving, while on South State street the improvement is slower. The people feel that Chicago is in a transition state; that influence may develop what will change the currents. An elevated railroad, for instance, would exert a marked influence and advance properties in certain localities out of proportion to the advance in other places.

It is probable that during the next twelve months several large business structures will be erected. Business men by the score are clinging on to and in to, their old-time houses. Store owners are seeking their annual rental year after year, out of their old-fashioned three-story brick and frames, satisfied with their $1,000 to $4,000 a year. Instead of this they should, and many of them soon will, tear down their old structures, never intended for the commercial uses of the present generation, and erect in their stead, and under modern notions, grand five, six and seven-story iron and stone structures, furnishing three, four, five, or even eight times as much floor space and capacity. This spirit of improvement is soon to break out. The way for owners to make the most money is to tear down and build anew. The cheapest rent is in such enormous buildings.

There are blocks and blocks of these old-time houses that ought to disappear. How much longer will we wait? Until the old-fogies owning them depart, perhaps. But it would be economy to multiply the business capacity and the rent-producing capacity per foot front along our principal business thoroughfares by tearing down and building up. Elevators annihilate stairs, labor and time. Electric lightning simplifies many difficulties. Those who have made the change wonder how they could cling to their old dingy holes so long. There is room here for some splendid operations by our home capitalists. Store-keepers cannot take the lead It is their business to sell goods, not to build stores.

More old-houses could be sold, but owners are asking too much for them. Recently, several transactions have fallen through because of the stubborn refusal to take a little less when the opportunity came to sell. Old houses are proverbially slow of sale. They do not have all the "modern conveniences," are time-worn and tenant worn, need a good deal to fix them up and make them attractive; hence, buyers expect to be liberally allowed for these defects or drawbacks. If owners would meet buyers' view a good many more old houses would be sold. But they hold on, thinking that, like which key, they improve by age. In consequence buyers flock after the newer houses, with all their "modern conveniences," including cut-up and pent up little rooms and nine inch walls. The "old-house" owners might take a hint if they want to sell. The tide of tenantry and of ownership is toward new houses, and nothing but a considerate shaking in price will arrest it, even to selling some of the old properties that are half of and half off the market.

Call Telephone No. 209.

FOR SALE—By BERNHARD F. WEBER, Rooms 15 and 16, 84 La Salle st., Chicago.

We are making a specialty of property in the suburbs of Ravenswood and Lake View. Parties desiring to invest in good paying property, either improved or unimproved, in these suburbs will find it advantageous to call and confer with us.

STRANGE things happen sometimes in real-estate operations. Some months ago, owner A placed a house in conveyencer B's hands and told him to take $4,000 for it. In due time C came along, and, after the usual negotiations, it happened there was a little trifle of $19 of unpaid taxes, which A refused to pay or make good, and the upshot was, C refused to take the property and went away. In the course of time D came along and offered $3,200, and got it, as that was the best price that could be had. Moral—keep your property clear.

The Inter-State Industrial Exposition of Chicago will, on the evening of Sept. 1, at 8 o'clock open their building for the 14th annual Exposition—full and complete in all departments. The exhibits of the products of Industry, Science and Art promises to excel in attractiveness all that has heretofore been presented in the building. Rates of admission same as in former years. Railroad fares on all roads at greatly reduced rates.

A NEW DEPARTURE.

During the past few years, a large number of Eastern houses have found it necessary and advisable to establish branch offices in the west and in a majority of cases have chosen Chicago as the location of the new enterprise.

This has been brought about by the rapid-growing Western trade and the competition which has been strongly growing.

Among recent new departures of this kind is that of the Somersworth Machine Company of Great Falls N. H., manufacterers of the celebrated Brown's improved Steam Heating Apparatus.

Its economy, efficiency in operation, easiness of management, compactness and durability have combined to make it very popular in the East and will give it a ready acceptance with the people of the West.

They offer a new feature in their radiators, combining the artistic with their perfect system of radiation. The designs of their radiators are very ornamental, and when nicely bronzed, present a fine appearance adding rather than detracting from the beauty of a nicely furnished room.

At the fourteenth exhibition of the Mechanics Charitable Association of Massachusetts they were awarded the highest prize given to Steam Heating Apparatus.

Their Western branch is located at 154 Lake street where a careful examination of their goods may be made and is desired. A descriptive catalogue giving full description and prices will be sent on application.

GALVANIZED IRON CORNICES.

The galvanized iron cornice business o Chicago has assumed proportions of grea magnitude. Among the many firms as rep resentatives of this business is that of PETE & BINDER, 684 Milwaukee ave. The firm though recently established, has had a prac tical experience of many years, and to thi is due their success. During the past fe months they have received many contract in various parts of the city. Employing a large force of men they are prepared t turn out work promptly and satisfactorily

"CLEAN YO' CHIMBLY!"

Along with the advancement in the meth ods of carrying on nearly every branch o industry. the business of the Chimney Swee has kept well apace.

He and his methods have been succeeded by organized companies which have reduced the business to a science as compared with the limited facilities employed of ten years ago. The promoter of these improved methods of cleaning chimneys and "curing" them in Chicago, is the Chicago Chimney Sweep Company, with central office and telephone located at No. 165 Washington St., under the efficient management of John L. Manning.

There are many defective chimneys but few people know how they are cleaned in this day and generation.

The general annoyance of the old process is entirely done away with, and no dirt is made. A screen made of ducking is fitted over the fireplace and makes it as nearly air tight as possible. Then from the roof, a weighted brush of the proper size or shape is worked up and down until all the soot has been shaken off. When the incrustations upon the bricks are too hard to be thus removed, then recourse is had to cleaning bricks. The cost of cleaning the chimney is but a trifle, being generally one dollar per flue, with 50 cents extra for each story above the second.

Where more than one flue is in the same chimney, reasonable and satisfactory discounts are made. The cleaning of flues is not always the remedy for smoky chimneys and other means have to be resorted to. The "curing" of these chimneys, whatever may be the cause, is one of the principal features of the company's business, and in which they have had marked success.

Instead of the iron stacks which are so common, they have used with good results, terra cotta which does not wear out and is cheaper.

The work which the Company has already done testifies favorably to their system of business and the satisfaction it gives.

They employ only honest and reliable men and guarantee their work. The advantages in dealing with a responsible firm are too evident to need mention.

Seth F. Hanchett, Sheriff. By C. R. Matson, Deputy. L N

HOW TO DECORATE.

—All woods in ornamental grain are in great demand for cabinet work. The sycamore has a bright tint, almost like that of satinwood when made up in suites, and the broad, polished panels have the fine curl that has made maple so popular among the brighter woods.

—A cnshion formed of two satin bags has one of Nile green satin with a bunch of sweet peas embroidered on it. The other is of turquoise blue, with poppies.

—With wall paper, color is the chief subject to be dealt with. The colors may be so employed as as to depress or enliven the room, as for example—blue is cool and quieting; red, warm and exciting; blue produces the effect of distance, and placed on the ceiling causes it to appear higher, or used in a recess produces the appearan of greater depth; yellow, on the contrar appears to advance toward the eye—it wi lower the ceiling and advance the wall; re is the only color that remains stationary.

—Tiling is rapidly gaining ground n only for hearths, flooring for halls, vest bnles, but for walks as well.

—Figure subjects in tapestry are now en broidered for wall banners, portieres an over mantel snbjects for the dining-room.

—Apple green China silk forms a prett covering for the soothing pine needle pi lows; it is ornamented with a branch of th pine tree bearing several cones and in qnair lettering appear the following words: "Snc stuff as dreams are made of."

—A portion of the wainscoting in th bath-rooms of all the new, handsomely fi ished honses are made of tiles; on the scor of health and cleanliness there is nothin better.

A prononnced featnre of many chande liers is the nse of imitation colored candle and bobeches to match.

Decided tints in note paper have give way to those more delicate, snch as a pal shade of cream, a delicate grey and pear white.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, SEPT. 4, 1886.

THE MARKET.

The condition of the market still remains firm, with every indication of an approaching boom. Several large sales appear on record. The one drawback in the negotiations of large deals found by our agents, is that the commissions are not forthcoming after weeks and months have been spent in working up the deal. Men who have amassed a fortune of one hundred thousand to a million dollars, and invested it in real-estate, have done it by holding on to every dollar that comes into their coffers, and so when it comes to paying a commission of $1,000 to $10,000 for the selling of their property, it goes against the grain and they often refuse to pay.

Two cases have recently come to our notice. One was the transaction and sale of a piece of property early in the spring by two of our agents, where the commission amounted to $3,000 and over. The agents decided to arbitrate the matter rather than go into a long litigation in the courts. A committee was chosen consisting of two of our prominent agents, and a lawyer. The lawyer was the attorney of the capitalist, and it afterwards turned out that one of the agents was also transacting business for him. As a result, the paltry sum of $600 for negotiating this large deal, was agreed upon.

The other transaction was of more recent date and is one of the largest of the year. It was reported that the sale was made between principals, and so the seller would like to have it. But an agent was given the property and offered it to the buyer, who, after some time had elapsed, purchased it. The seller refuses to pay any commission and a law-suit is in store for him. While, on the other hand, it may be said that agents resort to trickery, and claim sales often when there is no ground for it, still it does not detract from the fact that many of our wealthy property owners resort to mean and unjust ends to elude the payment of commissions honestly earned. Some means should be taken to bring about a radical change in this wholesale non-payment of commissions.

The regular monthly meeting of the Real-Estate Board occurred on Wednesday of this week. A fair number of our prominent brokers were in attendance. The committee on the broker's license question had made a thorough investigation and offered a formal report, recommending immediate action on the part of the Board in reference to it. They found that a very small per cent., not more than twenty-five per cent., of the brokers paid last year.

City Collector Onahan promised the committee that the delinquents would be brought to time, as he had a carefully prepared list of lawyers and brokers of all kinds who would be proceeded against in the near future. But the committee received little consolation in this, as they remember that the same statement was made two years ago when the question was then agitated. A committee, with Mr. Cummings as Chairman, will still further investigate the matter.

The legality of the license, as decided upon by the Supreme Court in the case of Lyman & Giddings, was also brought out. The fact that no broker can collect a fee in the courts without a license, is another incentive to pay the dreaded license fee.

The discusaion in reference to the making of charges of $1 to $5 to applicants for the use of the dower book, which is now being compiled by the Board, seems a little premature when it is considered that only 300 names are at present on the book. The motion was wisely referred to a committee.

Mr. Hammond suggested to the Board that some action should be taken in regard to the protection of vacant houses against thieves who strip them of lead pipes. A reward offered for the detection and conviction of parties thus engaged would doubtless make less frequent such annoyances.

Another effort will be made to revive the selling of property by auction during the fall and winter. The success of the New York Board in this line of work was brought out by Mr. Givins, who recently visited it while in New York, and seemed to make it possible for such an end to be reached by our Board.

The noon-day Call-Board will be commenced on the 10th of September.

Inquiry having been made as to the fire-proof qualities of the Marshall Field building, now in course of erection on the block enclosed by Adams, Quincy, Fifth ave. and Franklin streets, a few points as to its construction may be of interest.

The Marshall Field building will be seven stories and basement in heigth, with granite walls to the second story, and from there up brown stone, both the granite and the brown stone being taken from celebrated quarries in Massachusetts. The cost of the building will be about a half million dollars. But the feature of the building which has attracted attention and which has led some to doubt its fire-proof qualities, is the large amount of wood that is used instead of iron, for columns, beams, girders, etc. While this is so, there is not the danger generally supposed from wood columns, for, in case of a fire, wood will char but retain its strength, as the heart of the column remains intact. With the iron column, unprotected, this is different, for the same amount of heat that would char a wood column an inch deep would melt an iron column, or crack it in case water is thrown upon it.. The general construction of the building is what is known as mill construction, there being no concealed point where fire could originate and remain unseen. Every precaution is taken against the spread of fire. The floors are guarded by a layer of wire lathing plastered over, and by asbestos, both known for their fire-proof qualities. Iron shutters are also placed in every window.

The building complies in every particular with the requirements for slowly combustible buildings laid down by the Boston Underwriters Association and will receive its lowest rating, which in itself speaks for its fire-proof qualities.

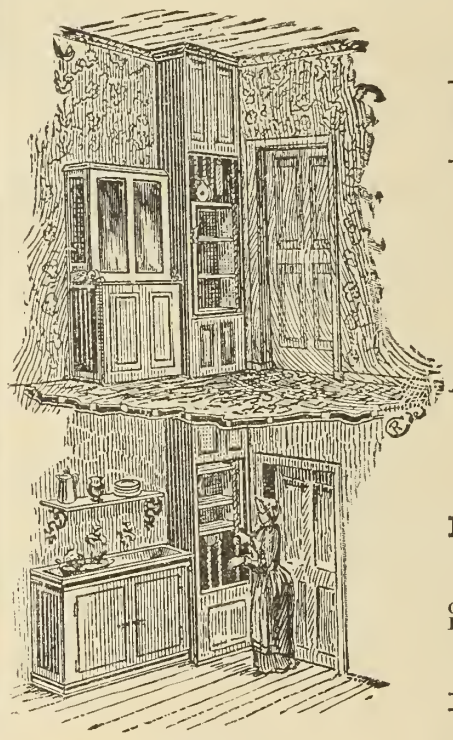
The contractors expect to complete the building early in the spring instead of the first of January, as at first contemplated, on account of delays caused by the labor troubles.

Malcolm McNeil & Bros. have closed a large sale of North Side residence property. They will give closer attention this fall to their real-estate interests than heretofore.

Turner & Bond are building 47 houses on the South and West Sides for estates which they have in charge.

On Wednesday, September 8, at 2 o'clock, P. M., at the south entrance on Clark st. to the County Court House, will be sold about 25x80 ft. on Asbury ave.. Also the Wilder Ice Pond, being the only one supplied with pure spring water, and from which ice can be cut. Both pieces of property are in Evanston.

Architect R. G. Pentecost Room 45, 177 La Salle street is preparing plans and will take figures in one week for a block of ten three-story store and flat buildings, 198x80 to be erected at once on the northwest corner of 22nd and La Salle Sts., for H. Sweet Esq. They will have fronts of Anderson pressed brick, stone trimmings, bay windows, stained glass, mantles, electric bells, speaking tubes and hardwood floors &c., and will cost about $75,000.



THE GREAT FAIR.

Chicago, the commercial city of the Northwest, has again been selected as the place for holding the great Agricultural and Industrial Fair of the State of Illinois, and the time has been appointed for September 6–10, 1886.

The liberal premiums offered, and the advantages to exhibitors of meeting the large crowds of visitors that attend this fair from Illinois, Indiana, Michigan, Wisconsin, Iowa and elsewhere, have conduced to make the extent and character of this fair second to none. The business men of Chicago and the officers of the railroads having connections with Chicago have succeeded to an eminent degree in their determination to make this fair the largest and most attractive on the continent to admirers of fine stock, improved machinery, the best specimens of farm products, the beauties of art, ornamental and useful work in the textile department, as well as the tempting culinary luxuries and necessities of life.

The demand for space for the exhibtion at the coming State Fair of the improved breeds of live stock, and almost every conceivable article of utility or beauty, for use or comfort of mankind, leaves no room to doubt that the collection will be the largest and most creditable ever displayed at any former fair.

Chicago is noted for great enterprises, and the coming State Fair promises to surpass all former efforts in this direction.

NEW ORLEANS, LA.—Adams Bros. have the contract to erect a $50,000 building for the New Orleans University.

WASHINGTON, D. C.—The sum of $250,000 is to be spent in building a new foundry at the navy yard.

ST. LOUIS, MO.—Leonhardt & Schucht, three-story brick carriage factory: cost, $8,000; B Weber & Co., contractors;

BIRCE, VA.—A house is to be built for J. H. Renshaw. cost, $15,000; Harding & Dinkelberg, architects.

TOLEDO, OHIO.—John B. Bell, brick and stone dwelling house, Collingwood ave; cost, $6,000.

BIRMINGHAM, ALA.—Royster & Finney will erect a large brick warehouse. Also, Moore & Handley will erect a four-story building 76x125 ft.

LYNCHBURG, VA.—A large building is to be erected for an orphan asylum: also the Norfolk & Western Railroad Co. will soon erect a new depot here.

BRADSHAW, NEB.—S. E. Stubbs & Co., owners. M. F. Hotchkiss, architect; two stories, brick and stone, architectural and galvanized iron work, freight elevator, iron shutters.

INDIANAPOLIS, IND.—The new State House is rapidly approaching completion. The statuary for one front has been put in position.

ANN ARBOR, MICH.—W. W. Watts will build a residence. Geo. Scott, architect and contractor; 2-story frame, galvanized iron work, mantels, grates, etc.

SHEBOYGAN, MICH.—H. K. Voight will build a business building, to cost $3,500; 2-story brick, iron work, store and gas fixtures, ornamental glass, iron shutters, etc.

DAKOTA CITY, NEB.—Rev. C. Baird, pastor, will let contracts for church. E. Stamm architect and contractor; cost $4,000; frame and brick, iron fence, stained glass.

BIRMINGHAM, ALA.—A Methodist Episcopal church of brick and terra-cotta is to be built; cost, $17,000; L. B. Valk, architect.

JACKSONVILLE, FLA.—Mrs. E. Bars will erect a three-story building, 75x108 feet; also, H. Robinson will erect a three-story building, 45x100 feet, at the same place.

LITTLE ROCK, ARK.—Brick dwelling between Third and Fourth sts., near Spring street; cost, $3,800; owner, H. M. Rector; architect, Max Orlopp. Brick livery stable, 3d and Louisiana st.; cost, $3,000; Jno. G. Fletcher, owner; Jno. Delaney, architect and builder.

CARROLTON, OHIO.—Architect L. B. Valk, of New York City, has prepared plans for the Presbyterian Society for a one-story church building, 32x58, brick, slate, hardwood finish, stained glass, steam or furnace heat, cost, $3,500; under way; N. E. Wash, pastor; Bider & Deevers, masons; James Daniels, carpenter.

MINNEAPOLIS, MINN.—Ertel & Fredreich, one-story wood dwelling, 1415 Washington ave. N.; cost, $3,000. —— P. H. Jones, two-story wood dwelling, 527 Pennsylvania av. N.; cost, $5,000,——J. Jones, two-story wood dwelling, 1507 Park av. S.; cost, $5,000; W. H. Hunt, architect.——S. D. Hamilton, two-story wood dwelling, 127 Fourth st. S. E.; cost, $3,000; E. S. Stebbins, architect.——American Express Co., brick stable, 1121 Western ave.: cost, $12,000; architects, Long & Kees.

MINNEAPOLIS, MINN.—F. H. Peavey will build a residence to cost $18,000. W. C. Whitney, Tribune building, is the architect, Mr. A. Clover, 1507 Hennepin ave., contractor; 3 stories, pressed brick, furniture, stained glass, hardwood finish, steam-heat, laundry machinery, marble mantels.

MILWAUKEE, WIS.—Ground has been broken for the residence to be built by T. A. Chapman. The building will be one of the costliest and most elegant residences in Milwaukee. It will be erected on Juneau avenue, at the intersection of Prospect avenue. It will be 40x80 feet in ground dimensions, and two-stories and a lofty attic in height, and will be built of Minnesota limestone. The dwelling will cost complete in the neighborhood of $50,000.

CLEVELAND, OHIO.—For the National Safe & Lock Co., plans have been drawn for extensive buildings, and as soon as a favorable location is chosen, which will be in a week or two, the erection of the new works will begin.——Church for North Presbyterian Society, corner Case ave. and Superior st; cost, $22,000.——Residence for Edward Bingham, Esq., on Prospect st.; cost, $20,000; L. Wherry, contractor. ——Frame dwelling for James Corrigan, on Wilson ave.; cost, $6,500; Josiah Jenning, contractor.

KANSAS CITY, MO.—John Gray will build a three-story brick business house, 40x40, corner of Ninth street and State Line, $6,000.——P. H. Maddom, a two-story brick residence, 35x60, on northwest corner of Tenth and Olive streets, $6,000.——Albert Schrumpf, a two-story brick business house on northwest corner of 17th and Holmes, $2,500. ——Ferdinand Heim, a five-story brick business house, 70x185, on the corner of Guinotte and Agnes aves, $75,000. ——W. S. Smith, two 2-story brick residences on northeast corner of Fourteenth and Cherry sts., 42x50, $5,000.——J. J. and T. H. Mastin, eight one-story brick business houses, 142x50, corner of Sixth and Broadway sts., $5,000.

160 ACRES OF LAND,

Near Chicago. This piece of land is high and dry and near the Wisconsin Central Railroad. Will sell at a price which is bound to insure a large profit. Terms to suit.

R. W. HYMAN, JR. & Co.,
184 Dearborn St., Room 9.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

J. P. WHITE,

FOR SALE—By BERNHARD F. WEBER, Rooms 15 and 16, 84 La Salle st., Chicago.

We are making a specialty of property in the suburbs of Ravenswood and Lake View. Parties desiring to invest in good paying property, either improved or unimproved, in these suburbs will find it advantageous to call and confer with us.

MASTER'S SALE

—TO—

CLOSE an ESTATE.

By Order of the Circuit Court of Cook Co,

IN CHANCERY.

On Wednesday, Sept. 8, '86,

AT 2 O'CLOCK, P. M.

At the South entrance on Clark Street to the County Court House, in Chicago, will be sold the following property, to-wit:

The South one-third of LOT 2, in BLOCK 46, in the Village of Evanston, having an east front of 25 ft. on Ashbury ave., by 180 ft. in depth to an alley.

Also, The Wilder Ice Pond property, being the west part of Wilder & Chase's addition, and lots 1, 2 and 3 in block 6, in Chase and Pitner's addition to Evanston, and comprising more than three (3) acres of land. Pond is about 100x300 ft. in size, and supplied with pure spring water.

TERMS OF SALE.—One-third Cash; balance on or before one and two years, with annual interest at six (6) per cent. Proof of title made to said court and confirmed.

H. L. WAIT, Master in Chancery.
L. PROUDFOOT, Solicitor.

THERE HAS always been a difference between architects and builders as to whom architects should be responsible. Most builders think the architects ought to be the agents of the contractors instead of the owner. An architect scores builders pretty hard in the following lines:

"If they have taken the job too low, made a mistake in the calculations; or the price of materials goes up on them, or they are slow about pushing things when the weather is good, and then can't work when it is bad, or if third-rate lumber is sent when first-class is specified, or thin doors when the specification calls for thick ones, or they get all the sashes in a block of a dozen houses hung with cheap American hemp cord when the best Italian is specified, or the plasterer lays off his job when three-coat work is called for, or puts up eighteen-inch cornice when the plan calls for twenty-four inch or thirty-inch, or—I could fill 250 pages with more of the same brand and then not get through—then they expect the architect to help them palm them off on the owner, or coax him to accept it as being just as good or better than what was specified, when every one knows it is not, and to make no deductions for inferior work or materials, loss of time, etc.; (I could use several more "etc's" and then not fill up the bill.")

If the architect holds the builder to the contract, the builder is likely to feel he has been badly treated. In some of our Western cities both sides are endeavoring to harmonize their relations and to get at a proper understanding. The architect is, properly speaking, the agent of the owner, and is employed by him to see that justice is done him. If it is not his business to do so, then his services are not of much value. It is to the interest of the architects to have their relationship properly understood, and to act faithfully as the agent of the owner, and compel adherence to the contract, without regard to consequences.

Fortunately, in Chicago there is but little occasion for misunderstanding, yet misunderstandings do arise. In some cases builders expect the architects to practically play the part of foreman, and do things which do not properly come within the range of the architect's duties. If work is spoiled the builder sometimes unjustly blames the architect. The builder has HIS WORK, the architect has his. Owners sometimes make the mistake of ordering modifications without consulting their architect. This, besides being unbusiness like, is discourteous, and has led to serious trouble. Where men want instructions how to do a certain light piece of work, the architects claim they should come to them. This is a debatable question. Sometimes they should and sometimes they should not. The workmen are not to be blamed for making mistakes. Ordinarily, they should go to the builder, but the builder would not undertake to give directions which should come first from the architect.

Among the larger sales for this week we notice the transfer of the northeast corner of North Clark and Shiller streets from Josephine I. Kilian to Mrs. Flora R. Caruthers for $44,000. The property has 90 feet on Clark snd 150 feet on Schiller street, and is partly improved with modern stone front residences. The sale has been effected through A. M. Knoble, the North side Real Estate broker. Mr. Knoble is handling north Side property exclusively and takes special pains to find investors. The choicest investments to be had north of the river.

T. B. Boyd, one of Chicago's old real estate agents, after a cessation of business for six months on account of sickness, has reopened an office at room 3, 128 La Salle St. Mr. Boyd will carry on a general real estate business, buying, selling and exchanging property.

His long experience and large command of choice properties, for sale will make his services valuable to buyers and sellers alike.

A NEW FIRM.

Hale Brothers have opened up an office at 18–164 La Salle st., for the transaction of a general real-estate and loan business. Property in all parts of the city may be found on their books. Though a new firm, the embers are well known in real-estate circles through many years of active dealing in Chicago realty. With both a practical knowledge of values and a wide-spread acquaintance with property buyers and owners, their success is already assured.

REAL ESTATE AND LOANS.

Chicago real estate as a source of investment is becoming more popular with every year.

It is preferred to stocks, because the income is better assured. together with the prospective increase in valne. The magnitude of the trade and the incessant activity of the market, have enlisted the services of a large number of Chicago's active business men. Among these is the firm of Moritz Wolf, 1235 Milwaukee avenue. He is making a specialty of real estate in the northwestern part of the city, including subdivision property in Humboldt and Jefferson Parks.

The property of non-residents is cared for. Fire insurance is placed in reliable companies.

Mr. Wolf has been connected for a number of years with real estate in this locality, and has acquired a practical knowledge of its values.

LOANS.

Perhaps no firm or company is more prominently connected with the negotiations of loans in Chicago, than the Northwestern Mutual Life Insurance Co., under their efficient agent, R. Prindeville. Loans are made on any good security and in any amount at lowest current rates and without the usual comission. This is a special inducement to real estate brokers, builders and property-owners alike. Mr. Prindeville's office is at Rooms 13 and 14, 116 La Salle street Chicago.

In no department of indnstry, perhaps, has the appreciation of the external evidences of superior taste kept pace with the material prosperity of the city more than in the hearty encouragement and liberal patronage bestowed upon the fine arts and educational facilities. In suppying the demand thus created for fine office and school furniture, Chicago, by means of its unrivaled railroad facilities and the unlimited supply of the best descriptions of lumber, has taken a place ahead of all rivals, and among the leading firms in this line the firm of A, H. Andrews & Co. is specially prominent. Formerly they did a large business in fine household furniture, their sales in this line averaging a quarter of a million dollars per year, but finding, at a certain stage, tha other lines would be more profitable, it was given up, and while their present business is closely akin to that of furniture, they have now determined to resume the manufacture of household furniture, for which extensive arrangements have been made, at the same time relaxing none of their vigor in prosecuting the lines in which, during the last few years, they have been so eminently successful. Their main premises are situated at 195 and 197 Wabash avenue.

In addition to these premises the firm have factories and foundries in varions parts of Chicago and elsewhere, with branch offices at convenient places in other parts of the United States. The business of the firm may be briefly stated to be that of workers in wood and metals, manufacturers of bank, office and household cabinet ware and fittings, church and school furniture, school apparatus, opera seats, brass and wire work, etc.

HOW TO DECORATE.

—Soap-trays and holders for tooth brushes are shown for tourists, made of satin chased and antique silver.

—In the decoration of halls great care should be exercised in making them as beautiful as possible. They sh'ld have a fire-place not only for the sake of comfort and beauty but for the reason that a fire-place in the lower hall ventilates the whole house more or less; also a beautiful staircase with at least one platform to afford a rest and make the ascent easy. Winding steps should never be built where they can possible be avoided. Whenever a window is in any way possible get it, and then fill it with the richest possible stained glass, and if the light must come from the top let the glass here be warmly colored at least. Tropical plants are very good here, they give life where otherwise there would be none.

Legal Sales and Foreclosures.

This List is published but once and is not kept in type. See back numbers of THE JOURNAL.

September 21.

Commencing at a point in the north line of b 63 in Evanston. S F Hanchett, Sheriff. L N.

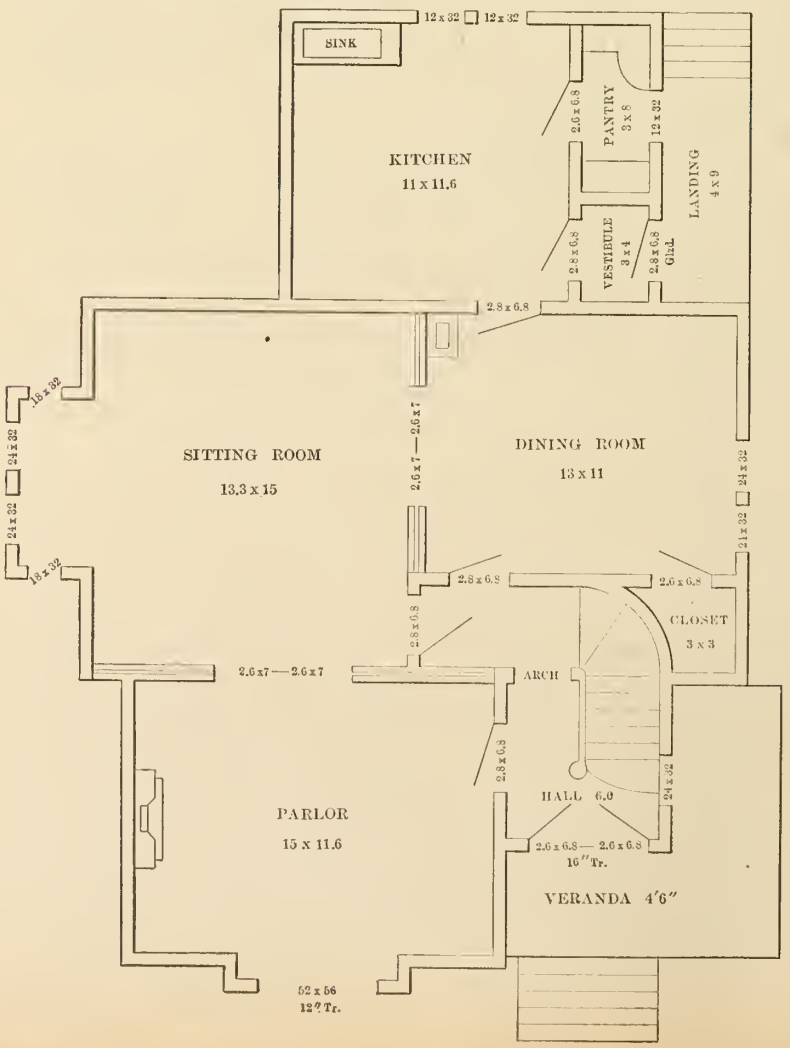
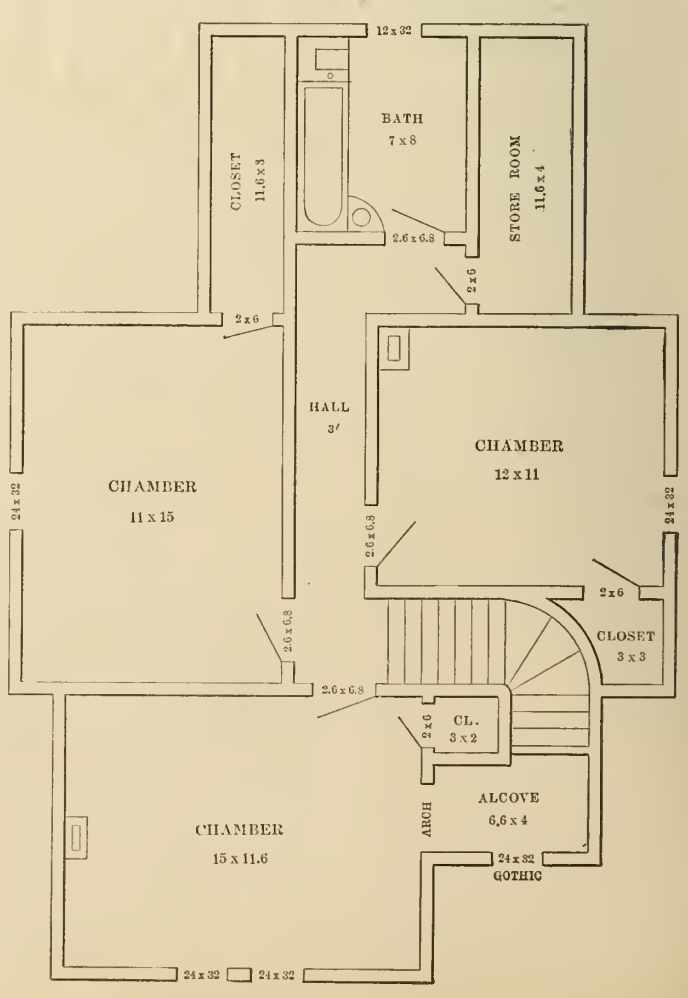
FRONT ELEVATION



DESCRIPTION OF PLAN—TO COST $2,400.

By permission of S. Montgomery Smith, publisher of Practical Plans for Suburban homes, we present the plan of a handsome 7 room house with tower.



The design contemplates a stone foundation 4 ft in depth with 3 ft of brick underpinning, walls to be sheathed with matched boards, floors double and both floors and walls lined with paper.

The front window to be French plate glass with cathederal transom. The arrangement of the rooms with sliding doors so that three can be thrown into one, forms a very pleasing feature and adds to the convenience and economy of housekeeping. The bath is arranged for hot and cold water, and if built where there is no system of water works can be supplied with tank in the attick and finished with either well or cistern water or both.

The cost of the house based on Chicago prices would be $2,400.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, SEPT. 11, 1886.

THE MARKET.

The most prominent feature of the market is the purchase of vacant lots for immediate improvement. These lots are situated in all parts of the city and suburbs. The building permits show an unusual increase and will more than make up for the temporary labor disturbances in the early spring.

Among the principal transfers of the week to be noted, are: Premises northeast corner Halsted and Van Buren sts., 50x96 ft., to H. H. Kohlsaat, for $50,000. Lots 1 to 5, block 9, South Branch, to Otto S. Geither, $45,000. Premises, 40x138½ ft. on State street, 120 ft. west of Congress. to Levi Z. Leiter, $65,000. On Dearborn avenue, 154 ft. north of Schiller. 171.8-10x132 feet, to Chas. G. Smith, $50,709. Southwest corner Sangamon and Adams, 100x125, to C, L. Jenks, $19,000.

While we have spoken In previous issues of the many legitimate real-estate men, and the innumerable curb-stone brokers who, by some way or other, escape the payment of the license fee now necessary to the legitimate transaction of sales of real-estate, we have overlooked, in a measure, the lawyers who, in large numbers, sell real-estate and transact a loaning business. Lawyers, as a rule, charge full commissions for the sale of their client's property or divide with the agent who happens to be in the deal. The daily papers show the continuous advertising of men who class themselves as lawyers and who pay no license. Certain lawyers even go so far as to put up boards, advertising property for sale. All this would be right and not objected to if said attorneys would take out licenses. But, by calling themselves lawyers, they escape this tax. If the license has any advantage at all for brokers, it is to be found in the protection afforded them in their business.

This has not yet been realized. It still remains with the authorities who demand the license to give them this lawful protection or repeal the license law.

A petition was presented at the last meeting of the Board of Hyde Park, for the right of way for an elevated road. The proposed track will occupy the alley between Calumet and Prairie aves., from 34th to 65th streets. At the meeting of the Board of Education the same company asked for a right of way for a double track elevated railroad over the alley-way between Butterfield and Dearborn streets, in the rear of the Keith School, which is on Dearborn and 34th sts. The company, known as the Consolidated Rapid Transit and Elevated Railroad Co., has obtained a good part of the right of way in Hyde Park. It is understood that it is backed strongly by John D. Jennings, Geo. M. Pullman, and other capitalists. The road will eventually run from the center of the city to South Park and Pullman.

J. P. White has closed two sales of $20,000 each, of North Side improved real-estate.

C. Lindemann & Son sold 25x145 feet on Sheffield ave., south of Diversey, $1,250; 50x125 ft. on Harrington, south of Diversey, $800; 25x125 ft., improved, Baxer st., north of School. $1,800; 100x150, Evanston ave., near Addison, $3,000; 25x125 ft. on Snyder. south of School, $575.

Pierce & Ware report an increased activity in the demand for real-estate.

O. M. Wells & Co. have sold two houses on Prairie ave., $14,000; one house at South Park, $5,000; and ten cottages at Hermosa, $15,000. This closes out their subdivision property in Hermosa. They are just finishing 16 houses on Prairie ave., between 39th and 41st streets, and have commenced five more at South Park.

F. A. Henshaw says: "Renting is better. All desirable houses will be taken this fall."

M. J. Richards is now located in the McCormick Block. Several sales have been recently closed by him.

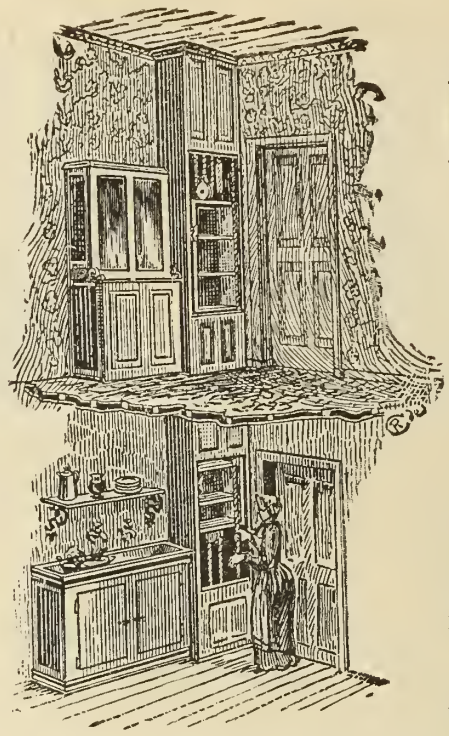
Byron A. Baldwin & Co. have sold 49x175 ft. southeast corner Central Park Boulevard and Meade, at $1.400; 96x175 on Central Park Boulevard, east of Meade, $2,600; on Johnson ave., west of Milwaukee ave., cottage and two lots, $975; 50x126, Kedzie ave., south of Central Park Boulevard, $700; two lots adjoining, $750; 50x150 on Central Park Boulevard, east of Kedzie, $1,300; 6 lots on Troy st., $300 each; lot, improved, on Milwaukee ave., $3,300; one lot on Sheffield, near Centre ave., $2,350. Five houses are being built on Kedzie ave.; also ten on Walnut, near Kedzie, and 30 more will be built soon on Walnut and Fulton streets. An advance of $50 a lot has been made in the subdivision adjoining Central Park.

Chas. Hertzel reports an improvement in the demand for State st. property, and that adjoining. This is due to the construction of the cable road.

Barnard & Calkins notice an improvement in acre property to the south. The elevated railroad is taking a more definite shape.

SPARHAM CEMENT ROOF.

With the improvement that has been made in almost every branch of industry, that of roofing has not fallen short. For, upon examination, such advancement proves to have been made that the ideal roof seems to be already in hand. To meet this demand for an ideal roof, the Sparham Roofing Co.,who, two years ago, came to Chicago from Canada, where their roof receives the most flattering testimonials, seems to make good its claim. The company believe that an ideal roof should be impervious to all weather; light, easily laid in summer and wlnter alike; able to go without repairs for at least ten years, a good non-conductor, fire-proof, able to be walked on without injury, and easy to be repaired by unskilled labor and without recourse to the mechanic who laid it. All these conditions of an ideal roof they are able to meet in the Sparham Cement Roof, under the sole proprietorship for Illinois of the Sparham Roofing Company, 149 La Salle street.



A letter from the L. S. & M. S. Railway will show the satisfaction which the roof gives in Chicago:

"A Sparham roof was laid on the car shop of the L. S. & M. S. Ry. in this city, about fifteen months ago, and is giving entire satisfaction. The building has been roofed twice with other materials and the "Sparham" is the only one which proved to be WATER-TIGHT. As far as I am able to judge, I believe there is nothing better.

The merits of this machine justly claim the attention of architects, builders and property owners.

EMIGRATION TO WISCONSIN.

Wisconsin seems to be a favorite State with emigrants from Northern Europe. The census of the past year indicates that the principal increase in population was made up of Swedes, Norwegians and Germans. In 1880 the German-born citizens did not number more than 200,000, while last year's figures give the number as 265,756. There were less than 50,000 Scandinavians in 1880, but 90,057 in 1885. According to the cenius of 1885, the total number of foreign-born citizens was 405,000; last year, in round numbers, $500,000.

FOR SALE—By R. W. HYMAN, JR. & Co., 184 Dearborn St., Room 9.

160 ACRES OF LAND,

Near Chicago. This piece of land is high and dry and near the Wisconsin Central Railroad. Will sell at a price which is bound to insure a large profit. Terms to suit.

R. W. HYMAN, JR. & Co.,
184 Dearborn St., Room 9.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

J. P. WHITE,
Room 10, 99 Washington St.

FOR SALE—By BERNHARD F. WEBER, Rooms 15 and 16, 84 La Salle st., Chicago.

We are making a specialty of property in the suburbs of Ravenswood and Lake View. Parties desiring to invest in good paying property, either improved or unimproved, in these suburbs will find it advantageous to call and confer with us.

Country Building News.

CEMENTVILLE, ILL.—Silas Carr, architect, will erect a brick residence at once. Stone sidewalks, also stable fittings. Carpets and furniture will be required through the house.

LOGANSPORT, IND.—An insane asylum is being erected here at a cost of $400.000. E. H. Ketchum of Indianapolis is the architect. Furniture not yet supplied.

ROCK ISLAND, ILL—I. Huber will erect a two story store and flat building 28x70 feet, costing $5,800. It will be built of brick, galvanized iron, plate glass, etc.

WATERLOO, ILL.—The Waterloo Milling Co. is erecting a flouring mill here with a capacity of 300 barrels.

THE SCATES WARM AIR FURNACE.

One of the few companies from outsi Chicago, exhibiting in the Exposition is t "Scates Warm Air Furnace Manufacturi Co.," organized last March, who have cor from Nashville, Tenn., to show the merits their furnace to the people of the West. A ready it is attracting much attention, as possesses merits not common with the ord nary furnaces. The economy in fuel, lar radiating surface, there being 175 squa feet of radiating surface in their mediu size, and its capacity to heat any buildin however large—schools, churches, factori warehouses, residences, etc., all combine make it a powerful and popular heate Soft or hard coal, coke or wood can be use and the amount of fire can be governed suit the necessities of heat, by a pate grate. An examination of this furnace architects, builders and property owners, especially desired by the general agent the company, Horace Foster. They also ca attention to their system of water heatin in connection with their furnace, by whi warm water can be thrown in every room a building.

INCREASE IN POPULATION.

Minneapolis Tribune. "The new scho census gives the population of Cook coun as 917,656, of which 703,817 belong to th city of Chicago and 213,839 to the rest of th county. Cook County and Chicago are s closely identified in government and inte est that from the outside standpoint ther is no occasion for making any distinction and the population of the great Wester metropolis may therefore be said to hav entered upon the last tenth in its growt towards a million. The city will be likel before long to make its boundaries coter minous with those of the county; and ther will be required seven figures to express th numbers of its people before the next Fede ral census is taken. Chicago is making rap id strides towards the rank of second city o the North American continent. In 1880 i was fourth. It has now unquestionabl passed Brooklyn and must be about ne and neck with Philadelphia. The fair prob ability is that the census of 1890 will plac it next to New York."

The editor of the Tribune evidently does not know how large Cook county is.

—Peach blow is the prevailing craze, and all the leading dealers in china and glass ware display quaint shapes in vases, bottles jugs, etc., of this delicate color.

DISSATISFED REPUBLICANS.

The growing dissatisfaction among the people, with some of the candidates nominated by the Republican convention for county officers, finds expression in the following, clipped from the Daily News of Sept. 8:

"The republicans are beginning to see that they made some great mistakes in forming their county ticket and are seriously considering making some changes. This will be a difficult thing to do. Those who are on the ticket will not enjoy being shoved off and respectable men who are off will not feel much flattered by being asked to take these fellows' places and become second-hand candidates. All around, it was a sorry day for the republicans when they made up their convention of men who were so frail as to become "too tired" to give their attention to the formation of anything more than the head of the ticket."

Practice and precept should go together. To preach our doctrine and practice a contrary one is hypocritical and mean. The head of the ticket is perhaps all right but the dissatisfaction rests with the county commissioners, the County Superintendent of schools and the Clerk of the Probate Court. Republican speakers have been for many years insisting upon the rule that the "office should seek the man and not the man the office," and that political barnacles should take a back seat. A. G. Lane has occupied the office of county Supt. of schools for at least four terms or 16 years, to the exclusion of better men. He has been a standing candidate for twenty years and when the "third term mania" was at its height, he could be seen hanging to the coat-tails of Long John and other would-be third-termers, in hopes that he might slip in to a life-time position. This same Lane never went to war. Oh, no! he never was within 100 miles of a rebel gun; he staid vigorously at home where he was safe, and was allowed to graduate at the Chicago High School! Why, we have hnndreds of young men who took a high school course and graduated with credit, and afterwards spent four or five years in going through college. It cannot therefore be on account of a scarcity of material that said Lane must be nominated continuonsly for the position of chief educator in a great city and county where there are thousands of scholars who are his superiors in every way except office hunting. If we must pnt a man in a position where he is forced to be educated at the expense of the teachers, many of whom are his superiors in education and learning, we shonld stop our boys after they get through High School, and make ward politicians of them.

Snre enough, the tail end of the ticket is bad, and the sooner the Republican leaders find it out the better.

Let the tax-payers look np the cases in Cook county wherein School Boards have swindled their districts by paying two prices for school furniture and apparatus, and learn how very non-committal this chronic office holder has been. He never was known to KICK against anything that would bring him into disfavor with the illiterate mob of politicians who have disgraced Chicago and Cook county for the last twenty years.

—Many of the new lamp shade frames are as large as an ordinary sized sun umbrella, and can be opened and closed at will. The frames are covered with the most exquisite silks of various colors and quaint designs; yellow, however, still retains its hold. These shades are bordered by a deep fringe corresdonding in color to the silk, or Valenciennes lace is often used.

—Spindle-work flutings and branching eet characterize many of the handsomest mahogany frames.

A Champion of Labor.

An Estelline man recently returned from a visit to another territorial town, when a friend said to him:

"Did you see Col. Softpalm when you were out there?"

"Yes."

"Still practicing law?"

"Yes, and loaning money. He has foreclosed a mortgage on about half the farms around there and got possession of them, and I guess will get the others in time."

"He must be making money, then."

"Yes, he is, and never did a day's work in his life. Then he's struck something better still."

"What's that?"

"Why, he's just been nominated for the legislature on the farmer's ticket and is sure of election. All the farmers and workingmen generally are simply wild to vote for him.—Estelline (D. T.) Bell.

Legal Sales and Foreclosures.

Cook County Illinois.

HOW TO DECORATE.

—An exquisite drawing-room chandelier has a large shallow bowl of genuine persian chased open work set in an open-work hoop of chased silver surmounted by crescents of gold and silver.

—There is at present a rage for mahogmany and cherry tables; many are severely plain, or carved or fancifully decorated in various ways.

—Cut glass is now seen in all the old English cuttings, the bullion cutting is among the newest designs and considered most elegant.

—At least one rush chair should grace a drawing-room, and it should be painted white with delicate lines of gold. A scarf of fancy-colored silk further adorns the left corner.

—Very pretty five o'clock tea-cloths are made of fine white linen, with conventionalized flowers worked in heavy white linen thread or floss; a heavy fancy fringe finishes the cloth.

—Two or three sofa pillows each one different. now adorn a fashionable sofa. They are not made so large as formerly and are oblong in shape.

CHICAGO, SATURDAY, SEPT. 18. 1886.

THE MARKET.

The market is improving with every week. From the present outlook the fall trade will be larger than for any period in the year and will add very materially to the already large increase over last year's business.

A comparison of the number of transfers and the aggregate amounts for any of the preceding months with those of last year, will show more conclusively than anything else, the active turn which Chicago city and suburban real-estate has taken, thus verifying the predictions made at the beginning of the year. It also shows the growing popularity of real-estate for investment purposes, and indicates the general upward tendency in prices; for without this there would not be the increasing demand.

To illustrate this, any of the preceding months may be taken, as, for instance, February, May and August. A year ago, the number of transfers in February was 809. and the amount, $3,085,595, while, during last February, there were 1,207 sales, amounting to $6,459,788. showing an increase of over 100 per cent. in the actual value of the real-estate sold.

In May, of 1885, 1,674 sales were made, amounting in the aggregate to $5,524,568, while in May of the present year, 2,105 transfers were made at $9,687,039, or an increase in the transfers of about 500.

During the past month, August, which is considered an off month for real-estate transactions, over five and one-half millions' dollars worth of property exchanged hands, and over 1,500 sales, against three and three-quarter millions, and 1,162 transfers for August of 1885.

A glance at these figures shows the real-estate business in its true light, which cannot always be drawn from the varied reports of the different agencies.

Further improvements are being made in the large store property on State st. and Wabash ave. The building formerly occupied by Wheeler & Wilson is being fitted up with a passenger elevator, which will render the lofts very desirable for business purposes. The main floor will be occupied by a large jewelry firm. The demand by tenants for State st. and Wabash ave. property renders an improvement such as the above very lucrative to the owners.

The number of eastern firms seeking Chicago for the establishment of branch houses to catch the western trade, is increasing rapidly. The present year marks a large number of such enterprises. To illustrate: Wanamaker & Brown, the largest retail dry goods dealers in Philadelphia, have just leased the stores, Nos. 79 and 81 State st., for the establishment of a branch house here. This is preparatory to a larger enterprise in the near future.

The transfers for the week show an unusually large number of acre transactions. The inducement for such purchases lies in the rapid development of suburban property during the past summer.

The sale of the old Ogden Block, bounded by Clark and Oak streets, Dearborn ave. and Lafayette place, to U. P. Smith and Jesse Hildrup, for $250,000, and the intended improvement thereon, give it an important place among recent transactions. The whole square is to be covered with a seven-story structure, divided into four parts, with separate entrances and no connections. The first story will be of brown stone and the others of pressed brick. It will be fireproof throughout.

On Clark street there will be ten stores, the remainder of the first floor being given up to a restaurant (the kitchen being on the seventh floor), barber-shop and bath-rooms, billiard-room, quarters for servants, storerooms, and rooms for various other purposes. Over the stores will be twenty-two suites of offices of three rooms each. All the rest of the building will be devoted to flats—eighteen of eight rooms, seventy six of seven rooms, twenty of six rooms, thirty of five rooms, forty-eight "bachelor apartments," and forty-eight of three rooms; a total of 240. The choicest flats will be on Dearborn avenue and Lafayette place—the most desirable frontages; but all will be finished in a first-class manner and provided with every modern convenience. The company will furnish gas and coal, making contracts with dealers and giving tenants the advantage of the prices. Everything intended for tenants will be received in one place and sent to their apartments by dumb waiters. There will be four main entrances, each leading to a particular section of the structure, and at each there will be an elevator. One on Dearborn avenue will lead to the flats facing that street; one on Lafayette place to the bachelor apartments; one near by to the flat facing the place, and also to some of those fronting on Clark; one on Oak street to the flats there, and the others on Clark street. The offices will be accessible by a stairway to be used only by the occupants.

There will be a veranda on each floor extending around the court, upon which some of the flats will front, and the court will be fixed up like a park, having a fountain, trees and walks, so as to make it attractive and a fair substiture for a street.

The building will cost between $750,000 and $800,000. The plans have been prepared by Mr. Clay, and work will be commenced this fall.

* * *

At a recent meeeting of the Real-Estate Board the question of assessments on realty was discussed. It was shown from the taxes paid on several pieces brought up for illustration that the assessments were considerably higher in Chicago and Cook connty than elsewhere in the State. The following resolutions were unanimously adopted:

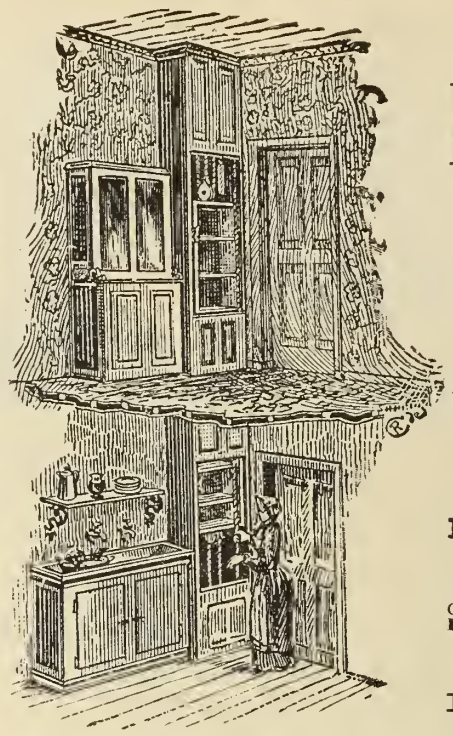
WHEREAS, A movement has been inaugurated to largely increase the assessment of Cook County for the year 1886 through the State Board of Equalization; and

WHEREAS, Such increase must fall almost wholly upon real-estate, which now bears almost the entire burden of taxation, and is, in addition to general taxes, compelled to contribute over $2,000,000 annually, in the form of special taxes, making the burden on nnimproved property intolerably severe, while it consumes, with the exception of some of the choicest business property, an amount of income of improved property altogether out of proportion to the amount of taxes paid by the other interests; and

WHEREAS, The real-estate assessment of Cook county is already much greater in proportion to its real value than the assessment of any other class of property in this connty, it is

RESOLVED, By the members of the Chicago Real-Estate Board that such action on the part of the State Board of Equalization would be unjust to the real-estate interests of Cook County, and that in our opinion the present real-estate assessment of Cook County, as retnrned by the Assessors, is in the main fair, as compared with the general assessment throughout the State, and should not be materially changed, and that the remedy for the failure of the Assessors to reach the value of property should be sought through action of the Legislature in the revision of the Revenue code, rather than arbitrarily adding a per cent to interests already overtaxed.

* * *



J. C. Sampson & Co. have made the following leases: 79 and 81 State, to Wanamaker & Brown, of Philadelphia, $10,000 a year; 151 State st., to Joseph & Fish, jewelers; the Furst building, northeast corner of Jackson and Franklin, $15,000 a year; cor. of State and Adams—100 ft. on State by 165 on Adams, at about $50,000 a year.

Bogue & Hoyt sold for O. S. A. Sprague to F. S. & J. F. Morse, 200 ft. on Drexel Blvd., near 49th st., for $40,000; to be immediately improved.

J. P. Bowes & Co. have sold within the last month, 1000 feet of State st. and Avenue property, to the south. The laying of the cable has had much to do with the active market for this property.

D. G. Hamilton reports an active demand for loans, with rates at 6% and upwards.

Felsenthal, Gross & Miller report a steady business in loans.

FOR SALE—By BERNHARD F. WEBER, Rooms 15 and 16, 84 La Salle st., Chicago.

We are making a specialty of property in the suburbs of Ravenswood and Lake View. Parties desiring to invest in good paying property, either improved or unimproved, in these suburbs will find it advantageous to call and confer with us.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

J. P. WHITE,
Room 10, 99 Washington St.

A piece of property on Dearborn st., ft north of Harrison, was bought for $28,0 30 days ago, by Edward P. White, and s this week for $35,000. This will be imr diately improved.

THE growing demand for central busin property has led the firm of Snow & Bli inson to give special attention to this cl of real estate. As a result they are offeri some nice inducements to investors choice business realty.

ARCHITECTURAL DECORATION

The only exhibit in the Exposition of chitectural decorations in plaster is ma by J. E. Walker of 77 E. Van Buren St. T centre pieces show an excellency of desi and workmanship worthy the attention builders and property owners.

Mr. Walker has the largest collection the latest designs in the city, and offers h goods at prices which compete with any fi class work in this line. Special designs a modeling are made to order. His practic experience of eight years makes his servic satisfactory to his many patrons.

AN EXHIBIT in the Industrial Expositic of special interest to our readers, is mad by the Somersworth Machine Co., 154 Lal street. The company are manufacturers Brown Steam Heating Apparatus, designe for heating public buildings, residence churches, libraries, school houses, store railway stations, and all places where art ficial heat is required. For the past te years it has been in practical use an comes well recommended from the hundred who have selected it in preference to a others.

Their radiators combine the ornamenta with the useful and add an embellishmen to a room rather than otherwise. The econ omy in the consumption of fuel, efficienc in operation, easiness of management, com pactness and durability, all combine t make the Brown Steam Heating apparatu a powerful heater and commend it to th attention of builders, contractors, architect and property owners.

—An exceedingly artistic frame, suitable for a water-color or etching, is of pine about two inches in width. The wood is simply oiled, while in three of the corners are several very large brass-headed nails irregularly arranged the whole effect is quite pleasing.

LANE PARK.

One of the heaviest of recent purchases in suburban real estate was that of fifty acres in Lake View, bounded by Ashland, Southport, Addison and Otto streets,—bonght by J. R. Lane et al, 198 LaSalle street at $3,000 an acre.

The property has been bonght with the view of placing it immediately on the market. Hence improvements are now being made in the way of solid concrete walks, stone cnrbing, grading of streets, laying of water pipes, setting of trees, etc. The property is snbdivided into about 500 lots and is for sale at prices ranging from $450 np. The character of improvements will te of the highest order.

One of the prominent featnres of this property is the grove which adds so greatly to the beauty and valne of property. The railway facilities bring into prominence the investment feature of this property and indeed of all Lake View. Sitnated four and one half miles from the court house, a ride on the street car of about thirty minutes, or of from ten to fifteen minutes on the steam car, will bring one to the property known as Lane Park. Lincoln Ave. cars run within two blocks of it, while a line soon to be placed on Ashland Av. will pass it on the west, It is about midway between the Chicago & Evanston and the C. & N. W. railroads. The rapid developement of Lake View and its brilliant future is too well known to need mention in our columns and it is this which brings into prominence the sale of property so situated as Lane Park.

FARM MORTGAGES are fast becoming popnlar with investors. These bonds are nsually made on Illinois improved farms at ⅓ of their cash value and bear from 6 to 7% interest. One of these was recently examined at Max Eichberg, 100 Washington street and proved to be well secured and perfectly safe for investors. Mr. Eichberg makes a specalty of city and farm loans on gilt edge securities.

Country Building News.

THE
Real Estate and Building JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, SEPT. 25, 1886.

THE MARKET.

The ruling feature in the real estate market for the past week has been the demand for small properties. A large per cent of the transfers range from six hundred to eighteen hundred dollars and are for lots and cheaply improved property. Large sales are made conspicuous by their absence, as they are to be expected at this time of year more than any other. This explains the difference of opinion which exists among brokers. Those who depend upon the negotiation of large deals are disappointed somewhat at the present condition of the market, while on the other hand dealers in lots and moderately improved property report a rushing business.

Owners of suburban and subdivision real estate are reaping better profits than ever. Once in a while a large purchase with heavy improvements gives this class of real estate an additional boom, as was seen in property adjoining the fifty acre tract in Lake View, bought by Jas. R. Lane, where fifty thousand dollars will be expended in making the property ready for the market.

The loan market is in a better condition for the capitalist than at any previous time in the year, as rates of interest are higher and firmer. A month ago ten loans on gilt edge security could have been put through at 5% where one can be made now for the same amount and security.

Mr. Reed, of the firm of Reed & Hurlburt, writes from New York that the money market is considerably tighter with no perceptible reason for the change. Rates of interest in Albany which have heretofore been from 3 to 4% are now 6%. More money is being placed in bonds and stocks, the former predominating.

The Episcopal convention to be held next month, of representatives from all parts of the United States and Canada will represent considerable wealth, some of which will doubtless be invested in Chicago real estate.

One prominent firm has already received communication to this effect, with reference to one of the delegates.

The sale of Western lands has increased at least 25% over previous years according to the report of the largest dealers in these lands. The bulk of the business has been transacted heretofore in May, June and July, but this year the business will extend over a longer period. The sales of one firm will aggregate 100,000 acres for this year as against 80,000 acres for 1885. These lands are principally located in Iowa, Minnesota and Kansas and bring from $6 to $10 an acre.

One thousand families are thus settled on the fine farming lands of the north and west through the agency of one firm.

They are mostly drawn from the farming districts of Michigan, Illinois, Iowa and Wisconsin.

In selling these lands care is taken to locate those of the same nationality together.

Chicago is the recognized centre for the sale of western lands and controls the larger part of the business.

From an interview with W. D. Kerfoot, it was learned that the attention of capitalists is directed to Wabash Ave. property as the best source of investment at present, State and Clark st property being considered out of the market. In the sale of smaller property, there is noticeable a change in the disposition of buyers to improve for themselves, whereas it was thought necessary a few years ago to build a house on a lot in order to sell it.

H. G. Foreman & Sons report a scarcity of 5% money. They note no special demand for either real estate or loans.

Snow & Dickinson—The strengthening in the money market among banks and the increase in bank discounts has had an effect on real estate mortgages in making rates firmer.

Several auctions of real estate will be held in October by private owners. It would be in order for the real estate board to carry in to effect the desires of several members expressed at a recent meeting, to inaugurate another auction sale under its auspices. Those who conducted the one last fall have not lost faith in this way of selling real estate.

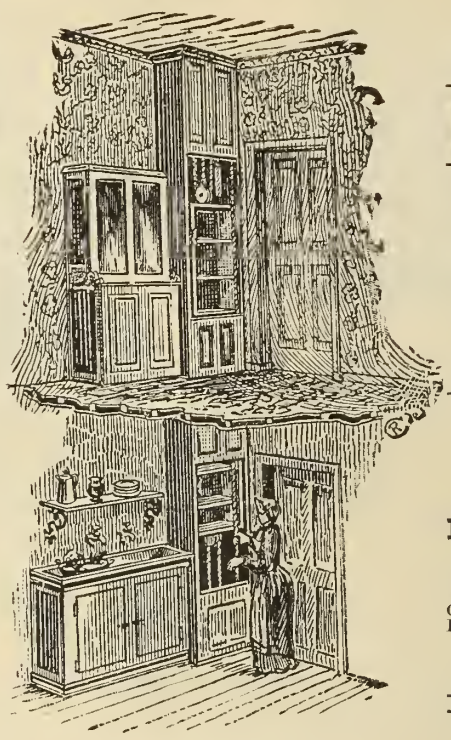
L. Silverman has sold to the Land owners' Building Association, for $100,000, 196x124¾ feet on Grenshaw street, between Campbell avenue and Rockwell street, with 196x124¾ feet on Fillmore street, and other lots in the same subdivision.

An auction of considerable interest to buyers of suburban realty will be held Saturday afternoon, Oct 2, at 2:30 o'clock at Fernwood. One hundred and fifty valuable residence lots will then be placed at auction elegantly located in this growing suburb. Fernwood is situated eight miles from the city limits on the Chicago & Eastern Illinois Railroad with 26 daily trains, low rates of fare. It now has over 100 fine residences, occupied and owned by Chicago business men, with a school, churches, public hall, music and literary societies. The terms of sale are especially easy, being only five dollars down, balance of 10% of purchase within ten days and five dollars a month until paid for.

This auction offers business and professional men an opportunity to make a paying investment in suburban realty.

LAKE VIEW.

The extensive improvements which have been made in Lake View during the past few months can hardly be realized by one who has not made the place a recent visit.



Houses have sprung up in every direction. A new high school has recently been erected. Lake View has been made even more accessible than before by new street car lines and the new Evanston road, which has two depots conveniently situated.

One of the largest enterprises in subdivision property in Lake View that has been undertaken for years, is the purchase of fifty acres by Jas. R. Lane et al. bounded by Ashland, Southport, Addison and Otto Sts. The sum of fifty thousand dollars is now being expended on this property in the laying of solid concrete walks, stone curbing, grading of streets, laying of water pipes, setting of trees, etc. This property has been placed for sale with the firm of Janssen & Bosworth, N. W. cor. Lincoln and Belmont Aves.—who have the exclusive sale of it in Lake View. The individual members of the firm are A. O. Bosworth & H. H. Janssen, both well known in Lake View and posted as to the values of its real estate.

Their business will comprise the sale of Lake View real estate both improved and unimproved and for business and residence purposes.

Warren S. Belding, 182 Dearborn street, has an exhibit in the Industrial Exposition, of electric bells, fire alarms, and electrical apparatus of all kinds, worthy the attention of property owners. The reasonable prices at which the electrical work is done by him, and the character of the work, commend his services to the public.

The growing demand for central business property has led the firm of Snow & Dickinson to give special attention to this class of real estate. As a result they are offering some nice inducements to investors in choice business realty.

SWEZEY'S

Real Estate for Sale.

BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard, north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

COUNTRY BUILDING NEWS.

Advance Information to Architects, Builders, Contractors and Dealers in Building Material.

ST. CLOUD, MINN.—C. F. Powell is about to erect a hotel at a cost of about $10,000.

PARIS, IND.—A Masonic hall will soon be erected here. Address building committee.

LAKE GENEVA, WIS.—R. B. Arnold will build a $5,000 residence. Contracts not let.

EAU CLAIRE, WIS.—Knapp, Stout & Co., of this city, will erect a saw mill on the Red Cedar river near Rice Lake.

OTTUMWA, IOWA.—Street car company will build a two-story frame car barn. It will require office and stable furniture and fittings. E. CLARK is the architect.

JEFFERSON CITY, MO.—A Masonic Temple will be erected here for the colored Masons of the State. Contracts not let. Address, Archie Drake.

JEFFERSONVILLE, IND.—M. Hall will build a one-story trunk factory, 40x60 ft. Corrugated iron, boiler, engine and corrugated iron roof. J. W. Whitlaw is the contractor.

DES MOINES, IOWA.—Mr. T. Early has plans drawn for a $7,500 residence.——W. L. Reed will build, at a cost of $5,500, and J. O. Freburg is to put up a $2,000 house.

CEDAR RAPIDS, IOWA.—Hon. S. Z. Dows will erect a double house at a cost of $8,000.——B. F. Hinds has plans for a residence which he will build this fall.

CAIRO, ILL.—Mrs. Alba will build a two-story store and flat building 25x45 ft. It will be built of brick, galvanized and ornamental iron and tin roof; gas fixtures. Jno. Madden is the architect and contractor.

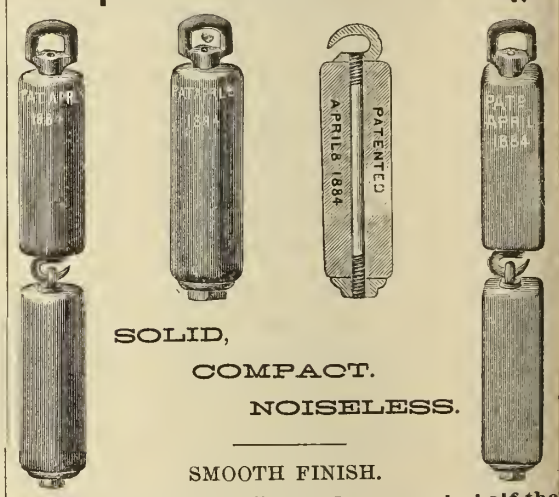
MONTGOMERY, MINN.—A two-story Catholic School will be erected here. Rev. F. S. Prybil is the pastor and architect. It will be built of brick. Prices wanted on school furniture.

GOSHEN, IND.—An iron bridge is to be constructed on Fifth st. It will be 70 ft. long, roadway, 18 ft., 5-foot sidewalk, water-way, 66 ft. A. McAllister and Valentine Berkey, county commissioners.

SALINA, KAN.—Taggart Bros. will build a new brick bank building here at a cost of about $9,500. Bank and office fixtures and furniture, wood carpets, galvanized iron will be required. Geo. Creuger is tne architect.

DANVILLE, ILL.—The Snyder Works Company, of Auburn, Ill., will build a three-story wagon factory here. It will be 300x60 ft., and have a wing, 125x60 ft.; to be built of brick and stone; two steam elevators.

STREATOR, ILL.—Robt. Lobb will erect a two-story residence. It will be built of brick and stone. Gas fixtures, galvanized iron, mantels, wood carpets, etc., will be used. Prices wanted on cut stone.



AURORA, ILL.—C. H. Adams will build a two-story residence 30x40 ft. It will be built of frame, with plate and stained glass. Furnace, gas fixtures, piano, range, etc., will be wanted. J. E. Minott, 7 Opera House Block, Aurora, is the architect.

MT. PLEASANT, MICH.—Isaac Conrad will build a one-story foundry and machine shop, to cost about $7,000. It will be built of frame and contain one boiler, engine, gas fixtures, grates, iron shutters, pump, shafting and pulleys, etc. Jeffirds & Whitney are the contractors.

ROCKFORD, ILL.—I. Jones will erect a two-story frame residence soon. Gas fixtures, plate, ornamental and stained glass, wood mantels, grates, furnace, etc., will be wanted. J. Monteith, 917 Grant ave., Rockford, is the architect.——Also Philip Hennesey, of Elgin, Ill., will build a two-story residence here at a cost of $3,000. It will be built of frame, ornamental and stained glass, hardwood finish. Gas fixtures, grates and wood mantels will be used. Same architect.

DETROIT, MICH.—A. E. Leavitt, 3-story dwelling, brick, stone trimmings, slate and tin roof, 46x65, Forest avenue, west; cost, $9,000. G. W. Lloyd, architect; Gibeon Viver & Son, contractors.——Episcopal Diocese, 3-story academy, brick, stone trimmings, gravel roof, 27x60, Adams avenue; cost $6,000; G. W. Lloyd, architect; A. Chapoton, Jr., mason; W. G. Vinton, carpenter.——Acme White Lead Co., 3-story factory, brick, gravel roof, 50x100, Grand River ave.; cost, $9,000; A. C. Varney, architect; Lane & Beitz, masons; Andrew McEnhill, carpenter.

RAYMOND'S PATENT
Compressed Lead Sash Weights

SOLID,
COMPACT.
NOISELESS.
SMOOTH FINISH.

Twice the Heft of Iron. Occupy only half the Space. No Friction.—No Noise.

Each weight centered, making it hang perfectly te and plumb. Endorsed by all the leading Architects d Builders.

Following are among the many buildings using t weight:

New Board of Trade. Potter Palmer's Residence.
New Pullman Bldg. C. B. Farwell's "
Royal Insurance Bldg. C. H. Case's "
Home Insurance Bldg. Custom House and Post-Office of Cincinn

Send for Circular.

CHICAGO, SATURDAY, OCT. 2. 1886.

THE MARKET.

The most encouraging featnre of the market for the past week has been the good feeling iu commercial interests which has had a direct hearing on the real estate market. This has shown itself in the promptness with which rents have been paid and in the inquiry for good commercial sites. A Pittsburg firm who have had a branch here for the past two years have now made application to purchase with the view of locating their whole establishmeut in Chicago, believing that it holds the key to the trade in the west. One agency has received during the past two weeks several inquiries from Boston, Baltimore, Philadelphia and other points from firms who are contemplating the opening of branch houses in Chicago. Business property has not looked more promising for years thau at the present time.

This awakening in commercial interests is a good indication of the prosperity to be manifested in business property during the coming months.

The money market still remains firm. Jas. L. Houghteling of the firm of Francis B. Peabody & Co., reports a very strong demand for loans, good security and large amounts, bringing 6% while anything small or outside readily brings 7%.

Favarable reports come from Hermosa where twenty two-story houses are being built by Dr. James Bradley. Five more have just been completed by another party. A telegraph station has recently been located there. The manufacturing establishments are running full force and are having all they can do· More activity is manifested than for some time.

At Pennock J. F. Keeney is building twenty two-story brick houses. He has recently sold 230 lots to Peter T. Lamreaux.

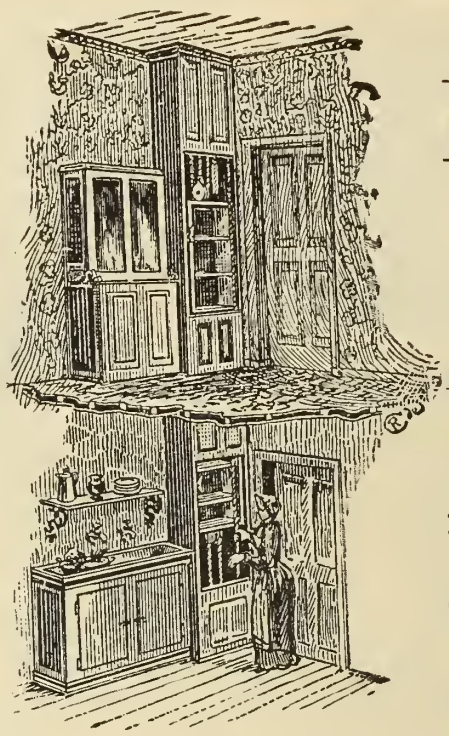
The proposed annexation of the most prosperous section of Jefferson to the city has been the principal subject of interest to those who represent the real estate interests of this prosperous village as well as the inhabitants themselves.

Mr. S. Delamater in reference to this said: "There are two sides of the question, both of which should be considered. Those who object to the annexation base their opposition largely on the restriction in their building operatious which would be laid upon them. The building of frame houses would not be permitted. This effects both the large and small owuers alike. For the large owuer might not find a market for his brick improvements as readily as for frame, while the owner of a single lot is in many cases too poor to go to the additional expense.

But on the other hand the village is sadly in need of better water snpplies, sewerage and lighting facilities, all of which would be more easily provided if the section was admitted to the city. There is evidently a majority of the residents iu favor of its admission. Mr. Delamater was one of the few real estate agents who signed the petition in favor of the annexation. Byron A. Baldwin was of the opiuion that it would be a decided improvement of the real estate interests of Jefferson to have it annexed.

Mr. Keeney thought that not only Jefferson but property adjoiuing would be materially helped by the proposed annexation, as street car companies would then extend their lines.

The members of the committee from the Real Estate Board, appointed to intercede in behalf of the tax payers of Cook County before the committee who have this in charge, returned Thursday from Springfield. Their efforts seem to have been of little avail, for in spite of the arguments of Mr. White who spoke for the committee, showing that Cook County taxes were now made at the rate of 22% on the real value of city and town lots, the Cook Couuty assessments were raised 33%. The present assessment of this class of property in Cook County is $113,000,000, and with the increase will amount to over $140,000,000. E. A. Cummings, one of the Real Estate Board committee, said in reference to their meeting: "We met the committee on taxes for city and town lots, Wednesday, in the Senate Chamber, and were very kindly received by them. Mr. Hugh A. White presented our case before the committee, showing by facts and figures that the taxes in Cook Couuty were made on 22% of the fair cash value of the realty instead of 9 or 10% as claimed by County Commissioner Klehm. Mr. White was listened to with great interest, and questions were afterwards put to him and other members of the committee in regard to Chicago real estate. They expressed their surprise at the proportion of the income which it took to pay the taxes. In regard to the effects of their mission, he said: The committee had fully made up their mind to raise the valuation at least 50%, owing largely to the influence brought to bear upon them by the County Commissioners. In a session in the afternoon they decided on an increase of 33%, which is by far larger that the Real Estate Board committee expected. This is due to the County Commissioners. It is the first time in the history of the board of the general equalization of taxes that county commissioners have appeared before it to advocate the increase of taxes of their own people. This increase makes more disproportionate than ever the taxes on personal, city property and lands, being now 25%, 33⅓% and 87% respectively.



The question of interest to property owners is not so much the increase which they will have to pay for the coming years taxes, as to whether this increase is to be expected every year. The true remedy is to be found in a change of the revenue laws, which are sadly inadequate to fulfill the demands for as populous a district as Cook County.

At a later meeting of the committee an increase of 30% was decided upon.

IMPORTAT AUCTIONS.

It has been demonstrated by the large number of real estate auctions held duriug the past year that this mode of selling may be carried on with great success. Many regard it as the legitimate method of briug ing both buyer and seller together, and reducing to a minimum the expense of selling. The firm of Elison Flersheim & Co. have been employed in nearly all of these auctions, and have proved themselves successful auctioners of real estate. Among their first auctions for the year was the sale of 33,000 acres for the Jay Cooke estate, which they sold out inside of two days in the Real Estate Board Rooms, at prices which were entirely satisfactory to the owners. They now have in hand three auctions, which they desire to call to the attention of buyers of investment realty. On Saturday, October 2, 2:30 o'clock, they will sell at Fernwood 150 lots cheerily located in this growing suburb. This auction offers business and professional men an opportunity to make a paying investment in suburban realty. Their next auction sale will be on October 9th at 2 P. M., on the grounds when 48 lots fronting on 35th street and 34th Court, between Robey & Lincolu streets, 25x125 each, will be sold. This sale is by order of Edward Laning, Esq., assignee, and each lot will be sold separately to the highest bidder. This property is located in a growiug locality. On Thursday, October 14, at 1 P. M., ou the grounds at the intersection of 43rd & Archer Ave., they will sell 65 lots in Severns Sub., and 42 lots on Pulman Wolcot & Johnson Aves., also 2 good houses and lots fronting 44th St. for account of W. H. Morrell, Esq. The Powder Magazines which have been heretofore in the locality, are now removed. Good railway facilities are afforded. They will sell for Kussell Bros. on Monday, October 11 at 3 P. M. A very choice piece of residence property on Michigan Ave., No. 1447, improved with a substantially built house.

They will also on October 12 at 12 o'clock offer for sale on the premises two frame houses with lots, 914 and 916 West Harrison St. This is a Guardian's Sale. The Harrison street cars have made property along this thoroughfare in great demand. Plats and further information may be obtained on application to their office, 84 and 86 Randolph St.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

J. P. WHITE,
Room 10, 99 Washington St.

A NEW ATLAS.

The growing town of Cicero will soon be furnished with a complete and reliable atlas published by Nicolai & Co., No 236 S. Water street. Cicero includes the points of Austin, Oak Park, Ridgeland, Hawthorne, Anstinville, Clyde and Oakridge.

The scale of the atlas is 200 feet to an inch. As this is the only atlas published of Cicero or likely to be, real estate agents and owners interested in this town will gladly take this opportunity of snbscribing for the atlas.

The publishers are taking every pains to make it perfect and as they have had experience in this work, the atlas will be a reliable one. They will also soon publish an atlas of Jeffersou.

THE RECORD.

Thirty-Ninth Street to be Paved.

There are two horse car tracks on 39th st from Cottage Grove avenue to State St. but there has never been a pavement laid in the street. Thirty-ninth street is the dividing line between the city, the Town of Take and the village of Hyde Perk, and all three corporatins are interested in this improvement. Sewer, water and gas pipes are only laid to to State street. The Engineer of the Town of Lake, Superintendent Powell, of Hyde Park, Commissioner Purdy and Superintendent McGann held a consultation and drove over the ground. A report will be made to each corporation, and the street will be paved and otherwise improved early in the spring of 1887.

JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, OCT. 9, 1886.

THE MARKET.

There is noticeable in the actual transactions of the week a larger number of transfers, over $10,000, than for several weeks previous. Among them are the following:

On Jefferson street, sonth of Van Buren, Anna S. Bunsch sold 71 feet to Chas. Kaestner, for $17,000.

Twenty-four and three-fourths feet were sold on Calumet ave., north of 23d st., by Sarah P. Gonld to Barbetta Katz, for $12,500.

A. M. Ward, et al., sold to M. F. Coe, 126 feet on Woodlawn ave., south of 47th st., for $16,380.

John S. Newberry bought of Walter S. Newberry, 22½ feet on Huron street, west of St. Clair, for $15,700.

Twenty-four feet on the northwest corner of Indiana ave. and 32d st., was sold for $13,000, by Helen A. Bunker to Lettie M. Quine.

On Woodlawn ave., sonth of 53d, 100 feet was bonght of the Master in Chancery by Maria L. Klemir, for $18,000.

Alex. H. Lowden sold the premises, Nos. 3231 and 3233 Groveland Park, to Mary L. Ward, for $20,000.

The Chicago Passenger Railway Co. purchased of the Estate of H. B. Claflin, 325 ft. on Centre ave., south of 16th st., for $10,000.

The premises No. 1331 Wabash ave., were sold to Angie S. Barnhart, for $11,000.

Thirty-one lots in Pennock were transferred to Julia Sullivan for $12.400.

Daniel B. Scnlly made a purchase in Hyde Park amounting to $40,250.

Geo. A. Arnold bought of Wm. T. Miller, lots 15, 16 and 17, in block 24 of Kimbark's addition to Hyde Park, for $37,500.

Jas. Barnett bought of Benj. G. Mitchell, 22 lots in Forrestville, for $18,000.

The premises No. 2612 Indiana ave., were bought by Dan'l Dougherty of Street Bradley, for $15,000.

E. J. Lehman bought of Geo. B. Carpenter, 396 feet on Surf st., corner of Evanston ave., and 190 feet in the rear, for $27,050.

W. J. Watson bought of Christian Smith, 145x171 ft. on the corner of Cottage Grove ave. and 45th st., for $10,875.

Chas. C. Collins sold to Chas. H. Frost, 165x462 in 35th street; west of Grand Blvd., for $50.000.

Acres are in active demand. The subdivisions which have been made during the past year have been sold steadily at prices which pay a nice profit to the investor. It would be hard to determine in which direction there has been the most activity in acre property. To the north, the new Evanston road has brought into market a large amount of property, which is now being subdivided and improved. LakeView, Argyle Park, Wilmette and other points show marked development in this direction.

To the west, Garfield and Pennock have been practically built up during the past few months. The houses at these places are of a very high character. Over 150 houses have either been recently built or are now in course of erection, A large amount of acre property in the vicinity of the three parks—Humboldt, Douglas and Garfield—have been subdivided and placed on the market.

To the sonth, there have been several new points opened np in addition to the rapid growth of stations and suburbs already established.

From Sonth Chicago, which for the past three years has been suffering from labor troubles, very encouraging reports now come. Andrew Krimbill reports a greater demand for real-estate during the past two months than for the preceding two years. This is due largely to the business interests of the place. The mills are now all running]uf]]n force. One of these, which had been idle for three years, has just been started up. The nail factory, which, for eighteen months, has done nothing, is now running. The blast furnaces have also recently started np. The Calumet elevator has handled a large amount of grain during the past year, loading and sending out twenty-eight large boats.

The Pan Handle has recently completed a line from Lansing to South Chicago.

The Canal and Dock Co. have built a large amonnt of new docks. A spacions warehouse has been bnilt by a large Salt Co. The Street Car Co. have nearly completed its "Belt-Line." They are now running sixteen cars. A new postoffice, leased by the government for five years, is being bnilt.

H. H. Brinton reports a good demand for property west of Western ave., on Van Buren, Harrison, Sacramento, California ave., and other principal streets in this section. The Van Buren street cars will soon run to the new car barns west of Kedzie ave. The street will also be paved. A new Catholic College has just been bnilt on Van Buren, near Kedzie ave.

Edwards & Richards, of Sonth Chicago, report a good business in the real-estate of South Chicago, Cummings and Cheltenham Beach.

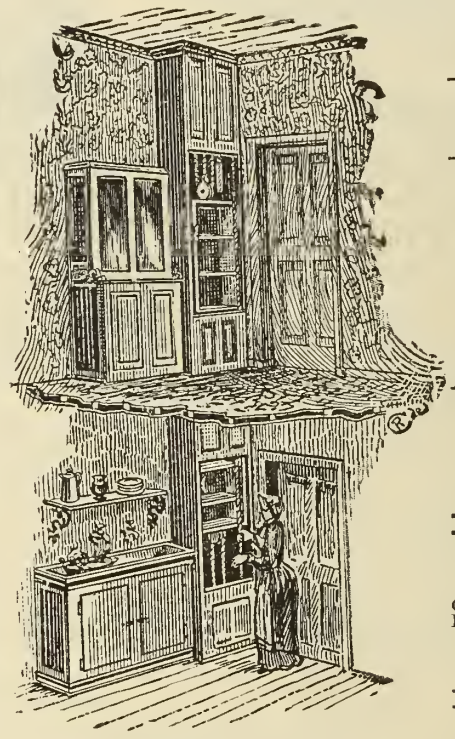
W. O. Budd is building five nice residences in Englewood. He has just sold one of the best houses in Englewood for $6,000.

Nelson Thomasson is receiving an active demand for acres to the south and west of Chicago. The Wisconsin Central B. R. has just created a good deal of inquiry for property along its new line.

E. S. Dreyer & Co. report an unusual good demand for real-estate and loans.

Three real-estate auctions will be held on the 11th, 12th and 14th of October, under the direction of Elison, Flersheim & Co. On the 11th, at 3 o'clock, they will sell the premises, No. 1447, Michigan ave. At a Guardian's sale, on the 12th, at 12 o'clock, they will sell two frame houses and lots, 914 & 916, W. Harrison st,, and on the 14th, at 1 P. M., they will offer for sale 107 desirable lots at the intersection of Archer ave. and 43d street—these lots fronting Archer ave., 43d, 44th, Pullman, Wolcott and Johnson aves., between 43d and 46th sts.

M. A. Farr has sold over 20 lots in the West Chicago Land Company's subdivision since the 1st of September, ranging from $400 to $900. Six buildings are in course of construction. The firm report an increase in the demand for timber lands, which are constantly bscoming more valuable.



Sawyer & Lombard report a good demand for lots and houses in their subdivision at Douglas Park.

Charles W. Rigdon, commenced a suit to recover damages in the Superior Court, last week, against E. W. Shirk, claimrng $100,600. Both parties are well known real estate men, while Shirk is a capitalist. Rigdon claims that last spring he and Shirk went into a specutation to buy from Alfred Cowles, the owner of the Ogden block on the North Side facing Washington Park. Shirk agreed to buy the property for $200,000, of which $10.000 was to be paid in cash, $65,000 in stock at par of the Trade and Building Company, while a mortage to secure the balance was to be given on the property. After Shirk got the deed, a company was to be formed under the name of the Washington Park Apartment Compang, which was to have a ninety nine years' lease of the land from Shirk at a rental of $18,000, to be increased at intervals by re-assessment. The capital stock of the company was to be $1,000,000, and a seven-story hotel building to cost $900,000, was to be erected. Rigdon was to have $100,000 of the capital stock for his work. He now claims that Shirk failed to perform his part of the scheme, but became interested in the new company, which is going to build the hotel, so that he might keep Rigdon out of the enterprise, and deprive him of his profits. Rigdon now asks the above damages.

The Hess Pure Air Furnaces are manufactured for public buildings, schools, halls, stores, dwellings, etc, while noted for their heating capacity, they are made with a special view of rendering the air heated by them pure.

While the air which snrrounds the fire-pots of ordinary stoves, etc, is taken into the lungs, in the Hess Stoves and Furnaces it goes into the fuel and is used to promote combnstion; it helps to bnrn the smoke; it unites with and consumes the gases. You cannot inhale it. Everything is so perfectly consumed that you can see nothing leave the chimney, and the residue is—dust of ashes.

The fresh air is carried in upright wrought iron or steele tubes through the combustion chamber behind and away from direct contact with the fire, and thus is heated by indirect radiation. This brings air into the room of a pnre, pleasant summer temperature, health-giving to yonng and old. Children and plants will thrive, the sick get relief and comfort, the lungs breathe freely. Bad feelings and headaches, so common with cast iron stoves and furnaces, are no longer suffered, but instead, an invigorating atmosphere gives tone to the system.

Real Estate for Sale.

BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

BOGUE & HOYT.

FOR SALE by J. P. WHITE, 99 Washington St., Room 10:

BUSINESS PROPERTY A SPECIALTY. Few persons have the time or facilities for examining all there is for sale. Some of the best property is not advertised or even placed on the market. From these causes buyers often miss the best bargains. My long experience in keeping a record of the principal transfers and names of owners of this class of property enables me to offer special advantages to buyers.

SUCCESSFUL OPERATIONS IN SUBURBAN REALTY.
To the South of Chicago in the threefold suburb—Englewood, Normal Park, Eggleston—have been carried on within the last year some of the most successful operations in suburban realty. The growth of Englewood to Normal Park and of the latter to Eggleston has been rapid and marvelous. Prominently connected with the realty of those places, is the firm of J. P. Mallette & Co. with offices both in Englewood and at Rms. 5 and 7 Royal Insurance Co's blds. The improvements which are now going on at Eggleston on so large a scale, are being made by this firm, who own and control large interests here.
Over $50,000 will be expended in laying sswers, water and gas mains, stone curbing and in macadamizing the streets. This will become one of the choicest residence sites in the vicinity of Englewood as the character of the houses will be controlled by them, and will in all cases be of a high order.
Correspodence is solicited by the firm with those who are desirous of buying residences or vacant property in either Englewood Normal Park or Eggleston.

FOR SALE.
459 North Avenue.
THE Valuable Piece of properly situated between La Salle avenue and Wells St., 60x90 ft., more or less. South front, with brick house, two-stories and basement, in good repair; also a frame barn, is to be sold
On Saturday, the 16th day of October,
At 2 o'clock, P. M., to the highest and best bidder, for cash.
This property is to be sold without reserve by order of the United States Circuit Court to satisfy a mortgage held by the Conuecticut Mutual Life Insurance Co.
It will be worth your while to investigate this, it being only one block west of Lincoln Park and situated in the finest residence district of the North Side. The lot alone is valued at $200.00 per front foot and the improvements are well worth ($6000.00) Six Thousand Dollars. And the very fact that the Connecticut Mutual Life Insurance Comp'y loaned $7000.00 on this property is solid proof of its valuation. This property was held by the Agents of the Company who made the Loan 5 or 6 years ago. This is a good chance for investment where all the surrounding property is on the increase. Dont let this opportunity go by and feel sorry afterwards that you did not investigate it for yourselves. The Sale takes place on
SATURDAY, the 16th of Oct., 1886.
at 2 o'clock in the afternoon, at the front door on Adams Street between Clark and Dearborn Streets, at the United States Government Building in the City of Chicago Permission to go in the house will be by card from the undersigned.
E. H. HUMPHREY, Administrator,
149 E. Monroe Street.

For Sale or Lease.
BEST LOCATION IN SOUTH CHICAGO.
One buildings and 3½ acres of Land, with two railroad tracks and track scales, etc.
This plant is reached by the C. R I. & P. and Pittsburgh and Ft. Wayne railroads, without switching charges, and is also connected with all other railroads by the "Belt" system. Will remove to our new works about May 1st.
CHICAGO FORGE & BOLT CO.,
234 South Clark-st., Chicago.

INTERIOR DECORATIONS.
Farwell Hall has recently been freshened np by neat and tasty decorations, designed and executed by the well known interior decorators, Crossman & Lee. The construction of the Hall does not permit of any very artistic decorations. The aim of the artists therefore, was to give it a quiet and pleasant appearance which they have succeeded admirably in doing. The proscenium arch shows a very harmonious blending of colors and adds greatly to the appearance of the hall.
The firm are now engaged in decorating the First Baptist Church, the Armour Memorial building, Louisville Hotel, Louisville, Ky., and the residence of Alfred Cole, business manages of the Tribune.

CHICAGO, SATURDAY, OCT. 16, 1886.

THE MARKET.

Lake Street Property.

The records for the past few weeks of actual transactions in real-estate, show a marked increase over preceding weeks, and give a fair indication that the fall trade, long looked for and expected, is at hand. Three transfers of the week aggregate half a million dollars. One of these is specially worthy of note. as it shows the value of property northwest of the city limits. The sale was 210 lots at Pennock for $73,500, to Peter G Lamereaux. The price paid shows the thorough confidence in the future of this manufacturing point. The sale of lots still continues with a good deal of activity, and shows the growing desire of buyers to build for themselves.

LAKE STREET PROPERTY.

A few capitalists are turning their attention to Lake street property and are purchasing a large amount of that which is offered on the market. It will not be long before Lake street will become a very different thoroughfare than it is at present, and prices will be twice or three times what they now are. In fact, the awakening has already begun. Property which sold a year ago for $100 per foot is now bringing from $150 to $165, or an increase of over fifty per cent. in this short time. What Lake street has long needed has been a better class of improvements, together with the manifestation of more thrift in her commercial interests. A half hour's ride out on the Lake street cars developed the fact that much is already being done toward this end. Going west from the river the first noted improvement is a mammoth block of four-story buildings, arranged in stores and flats, with walls of pressed brick and brown stone trimmings. now being built on the north west corner of Peoria. A little further up, on the northeast corner of Carpenter, is a new three-story brick building, erected and occupied by J. Brown. At Elizabeth street, a fine large school building is nearly built. Several substantial brick blocks next intervened. At Ada, two three-story buildings are now being built. Mr. Billings, president of the West Side gas company, is now repainting his fine residence, which is located a little beyond the above. It is understood that he has recently purchased other property on Lake street.

At the intersection of Lake and Bryant Place, and fronting the park, is the large block of stores and flats in the shape of a triangle, nearly completed. From Ashland to Western Av. there are a large number of new brick buildings.

But, intervening between these improvements are a large number of dilapidated buildings, occupied by people in a state somewhat similar to the buildings, factories, etc., which in time must be removed and give way to a better class of improvements. The prices which Lake street property is bringing is far too low, being only a fourth or fifth as much as the same property is selling for on Madison street.

Considerable excitement is now being raised over the discovery of Gogebic range and its resources for the production of iron ore. The recent opening of an office here for the sale of stocks, has brought it before Chicago investors. The Gogebic range lies in Ashland county, Mich., about forty miles south of Ashland. From comparative obscurity it has become, inside of two years, the head of iron ore producers, and has attracted the attention of iron manufacturers all over the country. The nnmberof mines developed has increased from four to twenty within a year. The recently discovered process of manufacturing Bessemer steel has caused an enormous demand for Bessemer ores, which could not be supplied but for the discovery and development of this range.

More attention is now being given to property in the Calumet region. The facilities of this region in the way of dockage and railroads and the cheapness, when compared to the extensive sites of the city, commend it to the attention of manufacturers. An auction of 100 lots at South Chicago, with a five-acre tract will take place October 16, at 11:30 A. M.

While property is increasing in value in nearly every location, now and then a sale shows a marked depreciation. This is due, however, to local causes. The recent sale of the S. S. Hayes property for $15,000, is an illustration of this point. This property was worth, some twenty to thirty years ago, $85,000; $30,000 for the land and $5,500 for the house. On this valuation a loan was made for $30,000, which was at that time considered excellent security. The property should have brought at the recent sale, fully twice what it did, according to its cash value at the present time.

E. F. Getchell & Co. are now selling, in their subdivision in South Evanston and Douglas Park.

Norman T. Gassette & Co. have made a large number of sales on Wabash ave. The future of this street looks as favorable as any in Chicago. The frame buildings are fast being removed and substantial brick buildings taking their place. The firm offered recently $900 a foot for Van Buren street property and were refused, right adjoining a piece which a little time before sold for $750.

The auctions which the Real-Estate Board have inaugurated will be carried on every Saturday until further notice.

Chas. T. Tyrrell & Co. are receiving a good demand for loans.

C. M. Colehour has opened up an office at 101 Washington street, for the sale of manufacturing property in South Chicago and Colehour.

Benj. Bissinger reports the sale of Nos. 568–568½ and 570 State st., being a lot 56x112, with cheap frame improvements.

CALUMET REGION.

Its Facilities for Manufacturing and Business Purposes.

Much attention has been drawn recently to the facilities offered by the Calumet Region for manufacturing enterprises, lumber yards and all kinds of businesses which require a large amount of ground and exceptional railway and water facilities. The following lines of railway run through this region: Chicago & Atlantic, Nickel Plate, Pan Handle, Chicago & Western Indiana, the Belt Line and Michigan Central.

The dock frontage is being constantly increased, principally through the efforts of the Calumet & Chicago Canal & Dock Co., who are large owners in this section.

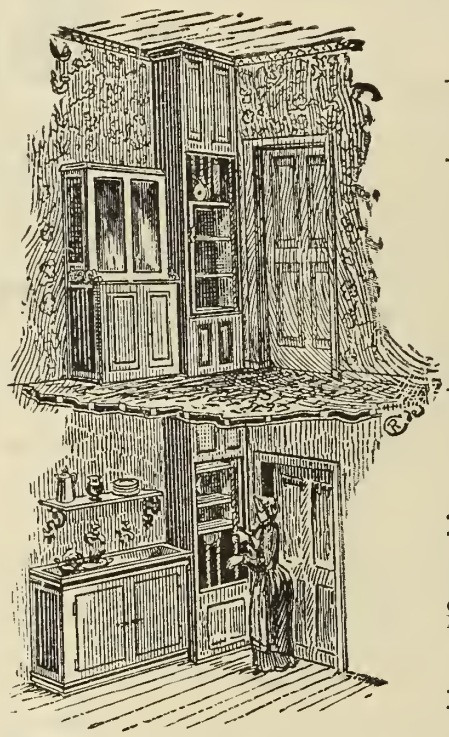
The dockage is of the highest character. The number of manufacturers and lumbermen who are already located here and their entire satisfaction with the facilities and location commend the Calumet region to other manufacturers who are either in need of room for their business or feel the burden of the high rents of city property. The Calumet and Chicago Canal and Dock Co., 170 Dearborn St. are both extensive owners and possess otherwise special facilities which enable them to hold out extra inducements to manufacturers.

The company solicit an examination of this region and will give full information to intending investors.

HERMOSA AND PENNOCK.

Great chances have taken place in Hermosa and Pennock during the past few months. They may be said to have been practically built up in this time. The location of prominent manufacturing establishments here has caused a demand for houses which has been met by the erection of some one hundred and fifty fine cottages, built after modern style of architecture on fifty foot lots. The principal operotors in these flourishing towns are Messrs. J. F. & C. P. Keeney, 94 Washington St.

They have adopted a new plan for the sale of their houses at these points, which possesses advantages worthy of the attention of buyers. They give a guarantee to every purchaser that in case of death during the continuance of the contract, they will give to his wife or heirs, a deed to the property free of all incumbrance and return them in cash, all the money that may have been paid on the premises.



For Sale or Lease.

BEST LOCATION IN SOUTH CHICAGO.
Our buildings and 3½ acres of Land, with two railroad tracks and track scales, etc.
This plant is reached by the C. R I. & P. and Pittsburgh and Ft. Wayne railroads, without switching charges, and is also connected with all other railroads by the "Belt" system. Will remove to our new works about May 1st.

There will be two two-story baggage buildings, the train shed will be 180x750 ft. It will be built of stone pressed brick and granite. Address, V. T. Malott, vice president and manager.

SUBDIVISION PROPERTY.

C. R. Walleck, 728 So Halsted-st., has recently had placed in his hands a subdivision for the Newberry estate, being block 36 of section 19. This he has now placed on the mar-ket at reasonable terms. He also has on nand a subdivision 30 acres of Geo W. Cass on the Southwest Boulevard and California ave. Mr. Walleck has given considerable atten-tion to the selling of subdivision property in the southwest-ern part of the city having successfully operated subdivi-sions for the Newberry estate, Judge Galbraith of Erie, Pa., and Ex-Gov. Evans. The demand for loans for building purposes on improved property is quite strong. He is able to place them at 6 and 7% interest in sums of from $500 to $5,000.

CHICAGO REAL ESTATE BOARD.

The Chicago Real Estate Board met Wednesday Oct 6. Mr. E. S. Dreyer reported for the committee that went be-fore the State Board of Equalization in behalf of Cook County real estate. From the information obtained by the committee it appears that the valuation made be the as-sessors was about 21½ per cent of the fair actual value of Cook County real estate. The committee therefore say that if it is true that town and city lots outside of Cook County are assessed at from 28 to 30 per cent of their fair value, then the increase made by the State Board is fair and just. As the committees have no means of knowing whether or not this is true, they recommend that the board take some measures to secure accurate and reliable data on this point. The committee report also calls attention to the small amount of personal property on which taxes are paid, thereby throwing excessive burdens on real estate, and recommends that the board take some steps that shall equalize this. They further report that there was a deter-mined effort made before the State Board of Equalization to get them to increase the assessment on Cook County real estate 100 per cent, and that had it not been for the efforts of the committee and the members of the board from this cotnty the assessment would have been increased at least 50 per cent. The report was adopted and the members of it and the members of the State Board were tendered a vote of thanks. The Dower committee reported, recommending a charge of 50 cents to be made for information in relation to each name supplied from the Dower book to persons not members of the board. They also reported forms for nec-essary blanks in giving information from the Dower book. They were also empowered to employ a competent person for sixty days to collate the dower information already ob-tained. The call board committee reported that at the last sale there was a good attendance. although but few of the members of the board were present. Three pieces of pro-perty were put up for sale, and sold at satisfactory prices to bona fide purchasers. The committee hoped the mem-bers would take a more lively interest in it. If it is once demonstrated that property can be sold at auction at the board-rooms it will not be long before attorneys will have judicial sales made there. A blank form for a contract for the purchase and sale of real estate was reported by the committee and adopted.

(o)(o) —ℱ— (o)(o)
(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a house an lot on the easy-payment plan and be absolutely certain that should death occur you family will be provided with a home clear all indebtedness and also with a sum money to help them through the most distressing time of their lives? If so, buy home on the W. E. Catlin guarantee pla which gives the purchaser the stronge guarantee ever given in a real-estate tran action. We will sell you a home at Herm sa or Pennock, either of frame houses an cottages, honestly and well built, after th most approved plans, each built on tw lots, 50 ft. front, a number of different style at extremely low prices, on long time an easy payments, and positively guarant that should you die during the continuan of the contract we will give your wife heirs a deed to the property free of all i cumbrance, and return them in cash all t money you may have paid on the premise If you purchase a home on this plan an die during the continuance of the contra the property will cost you nothing. If yo do not die you pay for the home just as eas as though this guarantee had not been give

Hermosa and Pennock are only six mile from the court-house, on the C M & St. P R. R. Plenty of trains; 6 cts. fare; onl one mile west of Humboldt park; will hav the street-cars here in a few months; splen did opportunity to make money or get yo a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 91 North-av., and 94 Washington-st., room 2

J. F. & C. P. KEENEY.

FOR SALE—By R. W. HYMAN, JR. & Co 184 Dearborn St., Room 9.

160 ACRES OF LAND,

Near Chicago. This piece of land is hig and dry and near the Wisconsin Centra Railroad. Will sell at a price which i bound to insure a large profit. Terms t suit.

R. W. HYMAN, JR. & Co.,
184 Dearborn St., Room 9.

Among smaller library or table lamps th most attractive are the Roman antique i form, reproducing the primitive oil lamp with handle at one end and nozzle-hole fo wick and pouring in the oil at the othe These lamps come in dead silver or chase brass and are oftentimes supplied with chimney and fancy shade in form of a full blown rose.

Fancy laces in very pretty designs form a very good finish to a fancy silk table-scarf period. When enbroidered in colored em broidery silks, silken tassels varying i color and interspersed here and there ar an addition.

CHICAGO, SATURDAY, OCT. 23, 1886.

THE MARKET.

The devolopments in the fall trade thus far show an active demand for low priced l ots, also for acres. There is an unprecedented demand for small loans, the trust deeds and mortgages being the most prominent feature of the records.

Buildiug and Loan societies continue to do a thriving business to the disadvautage of small brokers, who formerly transacted a fair share of the business. Promiuent houses like Chandler & Co., E. S. Dreyer & Co., F. B. Peabody & Co., Reed & Hurlbut, W. D. Kerfoot & Co., and a few others are enjoyiug a large patronage and are too busy to give their attention to anything bnt the examination of abstracts and the placing of loans, at 6, 7 and 8%, according to the amount needed by the borrower. During the past week there was a slight falling off in the nnmber of warranty deeds in the city and a slight increase in the nnmber of suburban transactions. This is largely due to the extension of street car liues and the building of new railroads.

Mr. Marshall of the firm of Knight & Marshall, makes a favorable statement of the growing suburb of Kenwood, where the firm have negotiated a larg number of transactions.

Kenwood proper lies between 45th and 51st streets, the lake and Drexel boulevard. Iu this comparatively small section, have been centered the wealth of Hyde Park. No property is being sold here less than $75 a foot while the best located is bringing $200 a ft, and there are but a few choice lots left at that price.

The growth and increase in value of this property have been due to the character of the improvements which have been of a very high order, the residents comprised largely of Chicago's enterprising busiuess men, and the railroad accomodations of the Illinois Central which now run trains every ten minutes in the mornings and evening. Several fine residences have been built this year.

The high prices of Kenwood property and the scarcity of it on the market, has brought on the market, property lying to to the south of it, and now called Egendale. While instances are given where the property has advanced over a hundred per cent, it is believed that the boom has not yet commenced. Property that sold on Woodlawn avenue between 52d and 53d sts a year ago at $30 re cntly brought $70 a foot. The prices are ranging fron $35 to $70 a foot in Egendale. Mead & Coe report the improvements which have been laid ont for Auburn,to be still going on. Some bnilding is being done and of a good character. That part of Auburn lying east of the railroad will become a fine residence site.

The firm report a very active business for the snmmer and fall months—both real estate and loans.

Chas. Goodman is receiving a good demand on the north side for flats and stores.

J. Robson Weddell reports favorably for Normal Park real estate. There seems to be a great increase in the value of Halsted St. property for lots that could be bought a year ago at $175 are now sold at $500. This is largely due to the realization on the part of buyers that Halsted St. is the main thoroughfare into the city.

The new car line on 21st st is opening np and developing property in its vicinity. It will be running by the 15th of November. A new school building has recentlly been bnilt on 21st st west of Wood St.

A great deal more might be written abont the rapid development of ontside real estate but the long lists of deeds prevent us from giviug a more extended review. A careful examination of the record colums will enable the intelligent dealer to form correct conclusions as to the status of the market.

CHAMPION SLIDING BLINDS.

An invention in inside blinds, possessing merits not common to others, will be of interest and worthy of mention, for they form a very important part of the furuiture, and are so necessary to the comfort and elegance of onr homes that much care and study should be devoted to their construction.

The common folding iuside blinds are clumsy and obtrusive, interfering with all kinds of window curtains, drapery or cornices. This is obviated by the Champion Sliding Blinds, manufactured by the Conway Mannfacturing Co., and represented in Chicago by Alex. Stewart, room 9, 159 La Salle street.

The following are among the merits which commend the blinds to the public.

It nncovers the whole windows without special preparation.

It is counterbalanced.

It moves easily and smoothly and with the least exertion.

Its upper sections are moved withont usiug a stick or standing on a chair in order to reach them.

All the sections are moved by pressnre at one point and stay where placed without fail.

It admits of a shade hung between glass and blinds.

It admits of a full stop, beiug used with 2 x4 stud.

It is handsomer, cheaper and more durable than the folding blind.

CITY COUNCIL.

An ordinance was passed for sidewalks on both sides of Washtenaw av from W 15th to C B & Q R R also on both sides of Kedzie av from w Madison to 12th both sides of Upton st from Milwankee av to Western av; both sides of Lumber st from Union to w 22d st; both sides of Robey st from Milwankee av to Asylum place; both sides of w 20th st from Throop to Blue Island av; both sides of w 19th st from Centre to Blue Island av; both sides of Liberty st from Canal to Halsted st; both sides of Canalport av from Brown to Morgan sts; both sides of Loomis from w 12th to w 14th; both sides of w Chicago av from Milwaukee to Ashland av; both sides of Hoyne av from Division st to North av both sides of Tilden av from Morgan to Aberdeen st; both sides of Bowery st from Van Bnren to w Congress; both sides of w 15th st from Ashland av to Lincoln st; both sides of w Chicago av from Ashland to California av; on the w side of Rockwell st from w 16th to 18th st. Real Estate for Sale.

BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence qnarter in the world.

BOGUE & HOYT.

(o)(o)(o)(o)(o)(o)(o)
(o)(o) (o)(o)
—(o)(o) Do You Want a Home! (o)(o)—
(o)(o) (o)(o)
(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a honse and lot on the easy-payment plan and be absolutely certain that should death occur your family will be provided with a home clear of all indebtedness and also with a snm of money to help them through the most distressing time of their lives? If so, buy a home on the W. E. Catlin guarantee plan which gives the purchaser the strongest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Pennock, either of frame houses and cottages, honestly and well built, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles at extremely low prices, on long time and easy payments, and positively gnaranteed that should yon die during the continuance of the contract we will give your wife or heirs a deed to the property free of all incumbrance, and retnrn them in cash all the money yon may have paid on the premises. If you pnrchase a home on this plan and die during the continuance of the contract the property will cost you nothing. If you do not die yon pay for the home just as easy as though this guarantee had not been given.

Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splendid opportunity to make money or get you a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26

J. F. & C. P. KEENEY.

FOR SALE—By R. W. HYMAN, JR. & Co. 184 Dearborn St., Room 9.

160 ACRES OF LAND,

Near Chicago. This piece of land is high and dry and near the Wisconsin Central Railroad. Will sell at a price which is bound to insure a large profit. Terms to snit.

R. W. HYMAN, JR. & Co.,
184 Dearborn St., Room 9.

Delicate and pretty sash curtains for a bay window are of white batiste, thin as a cobweb, embroidered in filo-floss with wild roses, each rose singly and some with the petals falling apart and scattered at random as though they had just dropped and blown over the cloth by the wind. They may be closely drawn over the sash of the window or looped back with very light pink and green ribbons.
